INTRODUCTION

OUR VISION

- To source the best of 20 years of researched International & Australian technologies
- To provide gentle yet effective cosmeceutical skincare to suit ALL skin conditions, including sensitised skin
- Ingredients carefully chosen for efficacy and tolerability

OUR MISSION

- Each ingredient in every Aspect Dr™ formulation is purposefully selected for their ability to create a positive change within the skin
- Cutting edge active ingredients and complexes, sourced from the world's most respected advanced pharmaceutical and biotechnical companies
- Combining science, with nature's most powerful ingredients

OUR VALUES

- High performance and high integrity ingredients
- Backed by research and effective results for all skin conditions
- Signature packaging to ensure product integrity and potency
- No animal testing
- Sustainable manufacturing methods

PRODUCT INFORMATION

aspect
DR™

ASPECT DR PRODUCT RANGE

EXFOLIATE

Remove lifeless cells to reveal smooth radiant skin and maximise absorption of targeted products for optimal results.

EXFOLIATE

EXFOL A PLUS

A refining serum combining the power of Lactic Acid, Lanablue™, and Retinol to smooth skin texture and allow for ultimate absorption of other ingredients.

Suitable for

- All skin types
- Ageing
- Problematic
- Pigmentation
- Dehydrated

Performance Ingredients:

- **Retinol Molecular Film Fluid** | Enhanced stable delivery of Retinol using a Vitamin E antioxidant rich complex.
- **Lanablue™ (Aphanizomenon Flos-Aquae Extract)** | A blue-green algae, known for its Retinol mimicking ability.
- **L-Lactic Acid** | Resurfacing Alpha Hydroxy Acid smooths skin surface while complementing the activity of Retinol and Lanablue™.

Application

Night

A highly active serum to be introduced gradually based on skin tolerance. After cleansing, dispense 1 pump and press onto skin every third night increasing to every second, then nightly. Should be applied first, before layering other serums.

Cautions:

- Not recommended for pregnant or lactating women.
- Contains marine extract.
- Always use maximum SPF while using this product.
- May contain traces of gluten.

pH: 3.5 – 4.0

Sizes:

15ml, 30ml

Ingredient List: Water, Lactic Acid, Dimethicone, Caprylyl/Capryl Glucoside, Glycerin, Sorbitol, Ethylhexyl Cocoate, Dimethiconol, Retinyl Palmitate, Phenoxyethanol, Xanthan Gum, Aphanizomenon Flos-aquae Extract, Citrus Reticulata (Tangerine) Peel Oil, Epilobium Angustifolium Flower/Leaf/Stem Extract, Glycine Soja (Soybean) Oil, Tocopherol, Vaccinium Myrtillus (Bilberry) Fruit Extract, Pullulan, Saccharum Officinarum (Sugar Cane) Extract, Rosmarinus Officinalis Leaf Oil, Medicago Sativa (Alfalfa) Extract, Citrus Aurantium Dulcis (Orange) Fruit Extract, Citrus Medica Limonum (Lemon) Fruit Extract, Retinol, Acer Saccharinum (Sugar Maple) Extract, Terminalia Ferdinandiana (Kakadu Plum) Fruit Extract, Backhousia Citriodora (Lemon Myrtle) Leaf Extract, Tasmanian Lanceolata (Mountain Pepper) Berry Extract, Citrus Glauca (Desert Lime) Fruit Extract, Davidsonia Jerseyana (Davidson Plum) Fruit Extract, Sodium Cocoyl Glutamate, Potassium Sorbate, Lecithin, Sclerotium Gum, Citric Acid, Glyceryl Caprylate, Polyglyceryl-6 Oleate, Ethylhexylglycerin, Disodium EDTA, Sodium Metabisulfite, Sodium Surfatin, Dimethylmethoxy Chromanol, Sodium Hydroxide

EXFOLIATE

LANAZYME MICRO PEEL

An advanced peeling gel formula containing a complex of Fruit Enzymes, Pumpkin Ferment Extract and Lanablue™ that work synergistically to exfoliate lifeless skin cells and smooth skin texture, revealing a more radiant complexion.

Suitable for

- All skin types
- Ageing
- Problematic
- Pigmentation
- Dehydrated

Performance Ingredients:

- **Lactobacillus/Pumpkin Ferment Extract** | Rich in enzymes and antioxidants that work to gently exfoliate and visibly brighten skin.
- **Lanablue™** | A phytoretinoid derived from blue-green algae, that helps to achieve the results of Vitamin A with the minimised risk of irritation.
- **Vitamin A, E & C** | A powerhouse vitamin complex to help illuminate appearance.
- **Fruit Enzyme Complex** | A blend of Pineapple, Grapefruit, Gojiberry, Melon, Acai Berry, Raspberry and Mangosteen to help smooth skin texture.
- **Malachite Extract** | A mineral extract rich in trace elements and copper that provides hydration while supporting skin recovery.
- **Coffee Extract** | Helps to re-energise skin.

Application

Morning or Night

Apply a large pearl sized amount and massage into dry skin until gel liquefies and pilling occurs. For sensitive skin, apply and do not massage. Leave on for 5-15 mins. Remove with a damp cloth using a gentle, sweeping action. Follow with serums and moisturiser. Use 1-2 times a week or as required.

Cautions:

- For external use only. Keep out of reach of children.
- Contains marine extract.
- Daily SPF use recommended.

Sizes:

50g

Ingredients: Aqua (Water/Eau), Butylene Glycol, Aloe Barbadensis Leaf Extract, Phenoxyethanol, Hydrogenated Starch Hydrolysate, Sodium Hydroxide, Glycerin, Caprylic/Capric Triglyceride, Ethylhexylglycerin, Retinyl Palmitate, Tocopheryl Acetate, Carbomer, Elettaria Cardamomum Seed Extract, Lactobacillus/Pumpkin Ferment Extract, Malachite Extract, Aphanizomenon Flos-Aquae Extract, Ascorbic Acid, Citrus Aurantium Dulcis (Orange) Peel Extract, Citrus Limon (Lemon) Peel Extract, Cucumis Melo (Melon) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Santalum Album (Sandalwood) Wood Extract, Camellia Sinensis Leaf Extract, Biosaccharide Gum-1, Cananga Odorata Flower Extract, Citrus Grandis (Grapefruit) Peel Extract, Cucumis Sativus (Cucumber) Fruit Extract, Rose Extract, Rubus Idaeus (Raspberry) Fruit Extract, Carbomer/Papain Crosspolymer, Euterpe Oleracea (Acai) Fruit Extract, Lycium Barbarum (Gojiberry) Fruit Extract, Ananas Sativus (Pineapple) Fruit Extract, Citrus Grandis (Grapefruit) Fruit Extract, Coffea Arabica Seed Extract, Garcinia Mangostana Fruit Extract, Morinda Citrifolia Fruit Extract, Punica Granatum Fruit Extract, Sodium Hyaluronate, Potassium Sorbate, Terminalia Ferdinandiana (Kakadu Plum) Fruit Extract, Leuconostoc/Radish Root Ferment Filtrate, Alcohol, Myrciaria Dubia (Camu Camu) Fruit Extract, Salix Alba (Willow) Extract

aspect
DR™

AST ACADEMY

TARGET

Infuse your skin with the purest active ingredients, at concentrations proven to deliver optimum performance.

TARGET

MULTI B PLUS

Formulated with Niacinamide, a potent Vitamin B complex and a blend of plant extracts. This essential serum helps to clarify and fortify overall appearance of skin.

Suitable for

- All skin types

Performance Ingredients:

- **Niacinamide** | Vitamin B3 to nurture stressed skin and aid in recovery.
- **Vitamin B Complex** | A rejuvenating blend of B Vitamins.
- **Marine Plant and Peptide Blend** | Calming and soothing properties that help support the skin barrier function.
- **Canadian Willowherb™ Extract** | A comforting antioxidant.
- **Aspect™ Signature Blend** | Certified organic Australian superfood complex.

Application

Morning & Night

Dispense 1 pump and apply to skin after cleansing. May be cocktailled with other Aspect Dr™ serums to turbo-charge any skincare regime.

Cautions:

pH: 5.5 – 7.0

Sizes:

7ml, 15ml, 30ml

Ingredient List: Aqua (Water), Niacinamide, Glycerin, Lecithin, Panthenol, Tocopheryl Acetate, Phenoxyethanol, Oryza Sativa (Rice) Bran Oil, Butylene Glycol, Citrus Aurantium Dulcis (Orange) Peel Oil, Xanthan Gum, Epilobium Angustifolium Flower/Leaf/Stem Extract, Sodium Stearoyl Glutamate, Faex (Yeast) Extract, Sclerotium Gum, Folic Acid, Disodium EDTA, Ethylhexylglycerin, Alteromonas Ferment Extract, Potassium Sorbate, Sodium Hydroxide, Terminalia Ferdinandiana (Kakadu Plum) Fruit Extract, Backhousia Citriodora (Lemon Myrtle) Leaf Extract, Tasmania Lanceolata (Mountain Pepper) Berry Extract, Citrus Glauca (Desert Lime) Fruit Extract, Davidsonia Jerseyana (Davidson Plum) Fruit Extract, Backhousia Citriodora (Lemon Myrtle) Leaf Oil, Citric Acid, Mentha Viridis (Spearmint) Leaf Oil, Riboflavin, Biotin, Inositol, Thiamine HCL, Pyridoxine HCL, Pseudoalteromonas Ferment Extract, Sodium Metabisulfite, Acetyl Hexapeptide-49, Salicylic Acid, Cyanocobalamin.

TARGET

ACTIVE C SERUM

A powerful antioxidant and peptide serum, formulated with Vitamin C to help firm the surface of skin and promote elasticity for a radiant complexion.

Suitable for

- All skin types
- Ageing
- Dehydrated
- Problematic
- Sensitive

Performance Ingredients:

- **Ascorbyl Tetraisopalmitate** | An oil soluble form of Vitamin C that is pH neutral and helps to illuminate and protect skin.
- **Tocopheryl Acetate** | Works in harmony with Vitamin C to provide potent antioxidant protection.
- **Panthenol** | A form of Vitamin B5 that assists with hydrating the skin.
- **Peptide Complex** | Combines SYN®-COLL, SYN®-AKE and Pepha-Tight® to promote elasticity and a more youthful appearance.
- **Canadian Willowherb™ Extract** | A botanical antioxidant that soothes and comforts the skin.
- **Aspect™ Signature Blend** | Certified organic Australian superfood complex.

Application

Morning use only unless instructed by your skincare professional.

Dispense 1 pump and gently smooth onto skin. May be cocktailled with other Aspect Dr™ serums. A tightening sensation may be felt shortly after application.

Caution:

pH: 4.0 – 5.0

Sizes:

7ml, 15ml, 30ml

Ingredient List: Water, Glycerin, Panthenol, Ascorbyl Tetraisopalmitate, Tocopheryl Acetate, Lecithin, Oryza Sativa (Rice) Bran Oil, Phenoxyethanol, Citrus Aurantium Dulcis (Orange) Peel Oil, Pullulan, Citrus Reticulata (Tangerine) Peel Oil, Epilobium Angustifolium Flower/Leaf/Stem Extract, Nannochloropsis Oculata Extract, Palmitoyl Tripeptide-5, Terminalia Ferdinandiana (Kakadu Plum) Fruit Extract, Backhousia Citriodora (Lemon Myrtle) Leaf Extract, Tasmanian Lanceolata (Mountain Pepper) Berry Extract, Citrus Glauca (Desert Lime) Fruit Extract, Davidsonia Jerseyana (Davidson Plum) Fruit Extract, Dipeptide Diaminobutyryl Benzylamide Diacetate, Citrus Aurantium Amara (Petitgrain) Leaf/Twig Oil, Lactic Acid, Xanthan Gum, Sclerotium Gum, Potassium Sorbate, Sodium Stearoyl Glutamate, Disodium EDTA, Ethylhexylglycerin, Benzoic Acid, Sorbic Acid, Sodium Metabisulfite

TARGET PROBLEM SKIN SERUM

Clarify blemish-prone skin with a complex of Amazonian botanical extracts and Vitamin C, to mattify excess oil and target imperfections for clearer looking skin.

Suitable for

- All skin types
- Problematic
- Excess oil
- Ageing
- Dehydrated
- Sensitive

Performance Ingredients:

- **Beracare AAA™** | Amazonian plant extracts including Acai Berry extract, Andiroba extract and Copaiba Balsam, to help minimise appearance of redness and relieve irritated skin.
- **Stay C®.50 (Sodium Ascorbyl Phosphate)** | A skin quenching Vitamin C that helps promote a healthy-looking complexion.
- **Canadian Willowherb™ Extract** | A botanical antioxidant that soothes and comforts the skin.
- **Aspect™ Signature Blend** | Certified organic Australian superfood complex.

Application

Morning & Night

Dispense 1 pump and gently smooth onto skin. May be cocktailed with other Aspect Dr™ serums.

pH: 7.0 – 8.0

Size:

30ml

Ingredient List: Water (Aqua), Sodium Ascorbyl Phosphate, Glycerin, Lecithin, Tocopheryl Acetate, Copaifera Officinalis (Balsam Copaiba) Resin, Phenoxyethanol, Xanthan Gum, Lactic Acid, Euterpe Oleracea (Acai) Fruit Oil, Epilobium Angustifolium Flower/Leaf/Stem Extract, Sodium Stearoyl Glutamate, Citrus Aurantium Dulcis (Orange) Peel Oil, Carapa Guaianensis (Andiroba) Seed Oil, Backhousia Citriodora (Lemon Myrtle) Leaf Oil, Ethylhexylglycerin, Disodium EDTA, Caprylic/Capric Triglyceride, Sclerotium Gum, Backhousia Citriodora (Lemon Myrtle) Leaf Extract, Citrus Glauca (Desert Lime) Fruit Extract, Davidsonia Jerseyana (Davidson Plum) Fruit Extract, Tasmanian Lanceolata (Mountain Pepper) Berry Extract, Terminalia Ferdinandiana (Kakadu Plum) Fruit Extract, Potassium Sorbate, Sodium Metabisulfite.

TARGET

BHA PURIFYING GEL

Formulated with Salicylic Acid, this lightweight gel helps to control problematic skin, blemishes and minimise excess oil to clarify complexion.

Suitable for

- All skin types
- Problematic
- Excess oil

Performance Ingredients:

- **Benzalkonium Chloride, Isopropyl Alcohol and Sodium Citrate** | An innovative complex of ingredients that allows BHA's and AHA's to work more effectively.
- **Citric Acid** | An AHA that works to exfoliate skin to smooth texture and clarify complexion.
- **Salicylic Acid** | A BHA that works to lift excess oil, dirt and debris.
- **Glycerin** | A plant based humectant that helps prevent transepidermal water loss.

Application

Once Daily – Recommended for use at night

After cleansing, dispense 1 pump and apply to clean, dry skin. Allow complex to completely absorb before additional serums or moisturisers are applied. Continue use to target future breakout.

Tip: Suitable for face and body. May be used as a spot treatment.

Caution:

- Always use a SPF while using this product.

pH: 4.0

Size:

50g

Ingredient List: Water, Isopropyl Alcohol, Sodium Citrate, Citric Acid, Hydroxyethylcellulose, Glycerin, Salicylic Acid, Benzalkonium Chloride

TARGET

COMPLETE PIGMENT PLUS

An advanced formula that combines five key actives, including Tranexamic Acid and Tyrostat-II™, unveiling a more even, radiant looking complexion.

Suitable for:

- All skin types
- Pigmentation
- Ageing

Performance Ingredients:

- **Tranexamic Acid** | An amino acid that helps to diminish the appearance of existing dark spots and prevent further signs of ageing.
- **Niacinamide** | Evens skin tone improving the appearance of redness and discolouration.
- **RadianSkin™ (Hydroxyphenoxy Propionic Acid)** | Works in synergy with other ingredients to target pigmented dark areas.
- **Tyrostat-II™** | A powerful complex of Rumex Occidentalis and Vitamin C to help illuminate and even out complexion.
- **Aspect™ Signature Blend** | Certified organic Australian superfood complex.

Application:

Morning & Night

Dispense 1 pump and gently smooth onto skin. May be cocktailed with other Aspect Dr™ serums.

Tip: For best results always use a maximum SPF while using this product.

pH: N/A

Size:

30ml

Ingredient List: Water, Glycerin, Ascorbyl Tetraisopalmitate, Niacinamide, Tocopheryl Acetate, Tranexamic Acid, Lecithin, Caprylic/Capric Triglyceride, Hydroxyphenoxy Propionic Acid, Oryza Sativa (Rice) Bran Oil, Ascorbic Acid, Rumex Occidentalis Extract, Phenoxyethanol, Xanthan Gum, Sclerotium Gum, Potassium Sorbate, Sodium Stearoyl Glutamate, Disodium EDTA, Ethylhexylglycerin, Terminalia Ferdinandiana (Kakadu Plum) Fruit Extract, Backhousia, Citriodora (Lemon Myrtle) Leaf Extract, Tasmannia Lanceolata (Mountain Pepper) Berry Extract, Citrus Glauca (Desert Lime) Fruit Extract, Davidsonia Jerseyana (Davidson Plum) Fruit Extract, Pullulan

TARGET

OPTIBOOST COMPLEX

A potent antioxidant serum that helps to achieve a more youthful appearance. This essential serum delivers a complex combination of botanicals to boost any skincare regime.

Suitable for

- All skin types
- Ageing
- Dehydrated
- Problematic
- Sensitive

Performance Ingredients:

- **Enzymatic Complex (Plankton Extract, Arabidopsis Thaliana Extract and Micrococcus Lysate)** | An antioxidant complex to help protect skin from external free radicals and delay visible signs of ageing.
- **Sodium Hyaluronate** | A form of hyaluronic acid that helps smooth the appearance of fine lines and wrinkles.
- **L-Ergothioneine** | A botanical amino acid that delivers powerful antioxidant properties.

Application

Morning & Night

Dispense 1 pump and gently smooth onto skin. May be cocktailed with other Aspect Dr™ serums.

Tip: Ideal for use 24 hours post procedure.

Caution:

pH: N/A

Sizes:

30ml

Ingredient List: Water, Ethylhexyl Isononanoate, Glycerin, Isononyl Isononanoate, Propanediol, Hordeum Distichon (Barley) Extract, Ergothioneine, Phenoxyethanol, Butylene Glycol, Phellodendron Amurense Bark Extract, Santalum Album (Sandalwood) Extract, Carbomer, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Lecithin, Ethylhexylglycerin, Evodia Rutaecarpa Fruit Extract, Micrococcus Lysate, Disodium EDTA, Sodium Hydroxide, Sodium Hyaluronate, BHT, Plankton Extract, Arabidopsis Thaliana Extract

TARGET

HYALURONIC SERUM

A hydration boosting serum formulated with two forms of Hyaluronic Acid, known for their rejuvenating properties, and antioxidants to replenish moisture and protect against external free radical damage.

Suitable for

- All skin types
- Ageing
- Dehydrated
- Problematic
- Sensitive

Performance Ingredients:

- **Cristalhyal (Sodium Hyaluronate) and PrimalHyal 50 (Hydrolyzed Hyaluronic Acid)** | A blend of high molecular and low molecular weight (hydrolyzed hyaluronic acid) forms of hyaluronic acid that help to smooth the appearance of fine lines and wrinkles.
- **Niacinamide** | Vitamin B3 to help maintain hydration and nurture skin.
- **Ascorbyl Tetraisopalmitate** | An oil soluble form of Vitamin C that is pH neutral and helps to illuminate and protect skin.
- **Aspect™ Signature Blend** | Certified organic Australian superfood complex.

Application

Morning & Night

Apply as final serum in skincare regime. Dispense 1 pump and smooth onto skin.

pH: 5.0 – 6.0

Sizes:

15ml, 30ml

Ingredient List: Water, Aloe Barbadensis Leaf Juice, Glycerin, Acacia Gum, Xanthan Gum, Phenoxyethanol, Panthenol, Tocopheryl Acetate, Sodium Hyaluronate, Hydrolyzed Hyaluronic Acid, Epilobium Angustifolium Flower/Leaf/Stem Extract, Niacinamide, Ethylhexylglycerin, Terminalia Ferdinandiana (Kakadu Plum) Fruit Extract, Backhousia Citriodora (Lemon Myrtle) Leaf Extract, Tasmannia Lanceolata (Mountain Pepper) Berry Extract, Citrus Glauca (Desert Lime) Fruit Extract, Davidsonia Jerseyana (Davidson Plum) Fruit Extract, Ascorbyl Tetraisopalmitate, Potassium Sorbate, Sodium Metabisulfite.

TARGET REDLESS

A multi-purpose oil that nurtures skin. Contains Sea Buckthorn, natural Omega 3 and antioxidants to help comfort all skin types, even the most sensitive.

Suitable for

- All skin types
- Sensitive
- Dehydrated
- Ageing

Performance Ingredients:

- **Botanical Complex** | Combines 21 plant based extracts including Sea Buckthorn to deliver protective antioxidant properties.
- **Coenzyme Q10** | Helps promote elasticity for a more youthful looking appearance.
- **Vitamin C & E** | Comforting antioxidants.
- **Aspect™ Signature Blend** | Certified organic Australian superfood complex.

Application

Morning & Night

Apply as final serum in skincare regime. Dispense 1 pump and gently smooth onto skin.

Tip: An everyday essential that combats areas of dehydration and aids skin recovery. Ideal before, during and after flying. May be added to your moisturiser for additional hydration.

Caution:

- Not suitable for application immediately post DermaFrac™ or needling.

pH: N/A

Sizes:

15ml, 30ml

Ingredient List: Caprylic/Capric Triglyceride, Oryza Sativa (Rice) Bran Oil, Hippophae Rhamnoides Fruit Oil, Tocopheryl Acetate, Ascorbyl Tetraisopalmitate, Ubiquinone, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Lavandula Angustifolia (Lavender) Oil, Pogostemon Cablin (Patchouli) Leaf Oil, Terminalia Ferdinandiana (Kakadu Plum) Seed Oil, Calendula Officinalis Flower Extract, Mentha Viridis (Spearmint) Leaf Oil, Achillea Millefolium (Yarrow) Oil, Anthemis Nobilis (Roman Chamomile) Flower Oil, Citrus Aurantium Amara (Bitter Orange) Peel Oil, Callitris Cumentaris (Cypress) Leaf/Twig Oil

TARGET EYELIFT

Deeply hydrate and replenish moisture with this luxurious eye cream. Containing a peptide complex to reduce the appearance of wrinkles, dark circles and puffiness.

Suitable for

- All skin types
- Ageing

Performance Ingredients:

- **Haloxyl™ (N-Hydroxysuccinimide, Chrysin, Palmitoyl Tripeptide-1 and Palmitoyl Tetrapeptide-7)** | To help minimise appearance of dark circles.
- **EyeLiss™ (Hesperidin Methyl Chalcone, Dipeptide-2 and Palmitoyl Tetrapeptide-7)** | Targets the appearance of tired eyes giving a healthier looking appearance.
- **Vitamin E** | A comforting antioxidant.
- **Soluble Collagen** | Supports hydration and barrier function.
- **Aspect™ Signature Blend** | Certified organic Australian superfood complex with powerful antioxidant properties.

Application

Morning & Night

Smooth a pea-sized amount to orbital rims of both eyes.

Cautions:

pH: 4.5 – 5.5

Size:

15g

Ingredient List: Water, Glycerin, Aloe Barbadensis Leaf Juice, Caprylic/Capric Triglyceride, Stearic Acid, Squalane, Cetearyl Alcohol, Sucrose Stearate, Cetearyl Oliviate, Butyrospermum Parkii (Shea Butter), Phenoxyethanol, Sorbitan Oliviate, Acrylates/ C10-30 Alkyl Acrylate Crosspolymer, Xanthan Gum, Panthenol, Soluble Collagen, Tocopheryl Acetate, Acacia Gum, Malus Domestica Fruit Cell Culture Extract, Lecithin, Steareth-20, Hesperidin Methyl Chalcone, Ethylhexylglycerin, Cucumis Sativus (Cucumber) Fruit Extract, Glycyrrhiza Glabra Root Extract, Sucrose Palmitate, Backhousia Citriodora (Lemon Myrtle) Leaf Extract, Citrus Glauca (Desert Lime) Fruit Extract, Davidsonia Jerseyana (Davidson Plum) Fruit Extract, Tasmania Lanceolata (Mountain Pepper) Berry Extract, Terminalia Ferdinandiana (Kakadu Plum) Fruit Extract, Epilobium Angustifolium Flower/Leaf/Stem Extract, Hydroxypropyl Cyclodextrin, Retinyl Palmitate, Ascorbyl Tetraisopalmitate, Sodium Hyaluronate, Potassium Sorbate, Biosaccharide Gum-1, N-Hydroxysuccinimide, Dipeptide-2, Palmitoyl Tetrapeptide-7, Palmitoyl Tripeptide-38, Sodium Metabisulfite, Chrysin, Palmitoyl Tripeptide-1, Avena Sativa (Oat) Kernel Extract, Sodium Hydroxide

TARGET

HYDRATING LIP BALM

Infuse lips with intense moisture and long-lasting protection from dehydration.

Suitable for

- All skin types
- Ageing

Performance Ingredients:

- **Jojoba Esters** | Wax esters help skin retain moisture, keeping it soft and supple.
- **Beeswax** | A natural skin conditioner.
- **Shea Butter** | To soften and smooth skin texture.
- **Coconut Oil** | Helps reinforce skins natural oil to protect from transepidermal water loss.

Application

As required.

Cautions:

pH: N/A

Size:

5g

Ingredient List: Jojoba Esters, Cocos Nucifera (Coconut) Oil, Beeswax, Helianthus Annuus (Sunflower) Seed Oil, Butyrospermum Parkii (Shea) Butter, Theobroma Cacao (Cocoa) Seed Butter, Citrus Aurantium Dulcis (Orange) Peel Oil, Mentha Piperita (Peppermint) Oil, Mentha Viridis (Spearmint) Leaf Oil, Caprylic/Capric Triglyceride, Olea Europaea (Olive) Fruit Oil, Vitis Vinifera (Grape) Seed Oil, Tocopherol, Persea Gratissima (Avocado) Oil, Tocopheryl Acetate

CLEANSE

The first step in every effective
skin transformation journey.

CLEANSE

MILD CLEAN

A gentle cleanser containing Canadian Willowherb™ extract, to comfort all skin types, including the most sensitive, while cleansing and effectively removing makeup.

Suitable for

- All skin types
- Dehydrated
- Sensitive

Performance Ingredients:

- **Glycerin** | A plant based humectant that helps prevent transepidermal water loss.
- **Canadian Willowherb™ Extract** | A botanical antioxidant that soothes and comforts the skin.

Application

Morning & Night

Dispense 2-3 pumps and emulsify with water. Massage onto skin using circular motions. Remove with a damp cloth using a gentle, sweeping action. Repeat process if wearing makeup or water resistant sunscreen.

pH: 4.5 – 5.5

Sizes:

30ml
100ml

Ingredient List: Water, Glycerin, Lauryl Glucoside, Cocamidopropyl Betaine, Sodium Cocoamphoacetate, Disodium Cocoamphoacetate, Lactic Acid, Coco-Glucoside, Phenoxyethanol, Glyceryl Oleate, Sodium Cocoyl Glutamate, Sodium Lauryl Glucose Carboxylate, Citrus Reticulata (Tangerine) Peel Oil, Epilobium Angustifolium Flower/Leaf/Stem Extract, Terminalia Ferdinandiana (Kakadu Plum) Fruit Extract, Ethylhexylglycerin, Sodium Metabisulfite

CLEANSE

DEEP CLEAN

A purifying cleanser formulated with a blend of naturally occurring AHA's and Lanablue™, known for its retinoid-like properties to exfoliate and refine skin.

Suitable for:

- All skin types
- Problematic
- Pigmentation

Performance Ingredients:

- **L-Lactic Acid** | An Alpha Hydroxy Acid that assists with micro-exfoliation, improving skin texture.
- **Organic Hydrafoam™** | A coconut and cane sugar derived SLS alternative.
- **Canadian Willowherb™ Extract** | A botanical antioxidant that soothes and comforts the skin.
- **Lanablue™ (Aphanizomenon Flos-Aquae Extract)** | A blue-green algae, known for its Retinol mimicking ability.

Application

Morning & Night

Dispense 2-3 pumps and emulsify with water. Massage onto skin using circular motions. Remove with a damp cloth using a gentle, sweeping action. Repeat process if wearing makeup or water resistant sunscreen.

Cautions:

- Always use a maximum SPF while using this product.
- Contains marine extract.

pH: 3.5 – 5.0

Sizes:

7ml
30ml
100ml

Ingredient List: Water, Glycerin, Caprylyl/Capryl Glucoside, Cocamidopropyl Betaine, Sodium Lauroamphoacetate, Lactic Acid, Sodium Chloride, Xanthan Gum, Phenoxyethanol, Sodium Lactate, Citrus Reticulata (Tangerine) Peel Oil, Potassium Sorbate, Disodium EDTA, Ethylhexylglycerin, Epilobium Augustifolium (Canadian Willow Herb) Extract, Vaccinium Myrtillus (Bilberry) Fruit Extract, Saccharum Officinarum (Sugar Cane) Extract, Citrus Aurantium Dulcis (Orange) Fruit Extract, Citrus Limon (Lemon) Fruit Extract, Acer Saccharum (Sugar Maple) Extract, Aphanizomenon Flos-Aquae Extract, Sorbitol, Sodium Metabisulfite

CLEANSE

AHA & BHA CLEANSER

Smooth skin texture with this exfoliating foaming cleanser. Formulated with Lactic and Salicylic Acid to help remove excess oil, while exfoliating lifeless skin cells for an illuminated complexion.

Suitable for

- All skin types
- Problematic
- Pigmentation

Performance Ingredients:

- **L-Lactic Acid** | An Alpha Hydroxy Acid that assists with micro-exfoliation, improving skin texture.
- **Salicylic Acid** | A BHA that works to lift excess oil, dirt and debris.
- **Aloe Vera** | A natural ingredient that binds moisture to hydrate.

Application

Morning & Night

Dispense 2-3 pumps and emulsify with water. Massage onto skin using circular motions. Remove with a damp cloth using a gentle, sweeping action. Repeat process if wearing makeup or water resistant sunscreen.

Cautions:

- Not recommended for pregnant or lactating women.
- Not recommended for those with aspirin allergies.
- Always use maximum SPF while using this product.

pH: 3.0 – 4.0

Size:

200ml

Ingredient List: Water, Aloe Barbadensis Leaf Extract, Lactic Acid, Cocamidopropyl Hydroxysultaine, Glycerin, Cocamidopropyl Betaine, Butylene Glycol, Caprylyl/Capryl Glucoside, Lauryl Glucoside, Sodium Chloride, Sorbitol, Salicylic Acid, Phenoxyethanol, Sodium Hydroxide, Panthenol, Citrus Aurantium Dulcis (Orange) Peel Oil Citrus Grandis (Grapefruit Peel) Oil, Hamamelis Virginiana Extract, Citrus Reticulata (Tangerine) Peel Oil, Saccharum Officinarum (Sugar Cane) Extract, Ethylhexylglycerin, Tetrasodium EDTA, Amine Hydrochloride, Citrus Limon (Lemon) Peel Oil, Cocamidopropyl Dimethylamine, Epilobium Angustifolium Flower/Leaf/Stem Extract, Tocopheryl Acetate, Alcohol, Camellia Sinensis Leaf Extract, Citrus Aurantium Dulcis (Orange) Fruit Extract, Citrus Medica Limonum (Lemon) Extract, Pyrus Malus (Apple) Fruit Extract, Rosmarinus Officinalis (Rosemary) Extract, Salix Nigra (Willow) Bark Extract, Quillaja Saponaria Bark Extract, Sodium Metabisulfite

HYDRATE

Achieve radiant, hydrated skin with moisturisers formulated with antioxidants and essential vitamins to help replenish hydration.

MOISTURISER

ULTRA LIGHT HYDRATION

A lightweight moisturiser formulated with Hyaluronic Acid and essential vitamins to help replenish hydration.

Suitable for

- All skin types
- Excess oil
- Problematic
- Sensitive

Performance Ingredients:

- **Sodium Hyaluronate** | A form of hyaluronic acid that helps smooth the appearance of fine lines and wrinkles for a more youthful looking complexion.
- **Vitamins C, B5 and E** | To help maintain hydration and nurture skin.
- **Palmitoyl Tripeptide-38** | Refining and rejuvenating peptide.
- **Canadian Willowherb™ Extract** | A botanical antioxidant that soothes and comforts the skin.

Application

Morning & Night

Gently massage a pearl sized amount over face, neck and décolletage after serums.

pH: 4.5 – 5.5

Size:

50g

Ingredient List: Water, Glycerin, Caprylic/Capric Triglyceride, Cetearyl Alcohol, Stearic Acid, Cetyl Alcohol, Coco-Caprylate/Caprate, Isopentyldiol, Dimethicone, Isodecyl Neopentanoate, Pentylene Glycol, Squalane, Phenoxyethanol, Ceteareth-20, Panthenol, Maltodextrin, Xanthan Gum, Carbomer, Citrus Aurantium Dulcis (Orange) Peel Oil, Citrus Grandis (Grapefruit Peel) Oil, Ethylhexylglycerin, Trifolium Pratense (Clover) Flower Extract, Citrus Aurantium Bergamia (Bergamot) Fruit Oil, Gamma Polyglutamic Acid, Syringa Vulgaris (Lilac) Extract, Tetrahexyldecyl Ascorbate, Sodium Hydroxide, Epilobium Angustifolium (Willowherb) Extract, Hydroxypropyl Cyclodextrin, Sodium Hyaluronate, Tocopherol, Carrageenan, Neopentanoic Acid, Camellia Sinensis (Camellia) Leaf Extract, Euterpe Oleracea (Acai Palm) Fruit Extract, Punica Granatum (Pomegranate) Extract, Sea Salt, Vitis Vinifera (Grape) Seed Extract, Palmitoyl Tripeptide-38, Sodium Metabisulfite

HYDRATORS

RESVERATROL

MOISTURISING CREAM

Submerge skin in a deluge of hydration with this rich moisturising cream. Containing peptides and resveratrol to help firm the surface of skin for a more youthful looking complexion.

Suitable for

- All skin types
- Ageing
- Dehydration
- Sensitive

Performance Ingredients:

- **Pichia/Resveratrol Ferment Extract** | A potent bioavailable active resulting from the fermentation of Japanese knotwood Resveratrol with the yeast microorganism *Pichia pastoris*.
- **ChroNoline™ (Caprooyl-Tetrapeptide-3)** | Rejuvenating peptide blend.
- **Mixed Tocopherols** | Antioxidant rich complex of Vitamin E.

Application

Morning & Night

Gently massage a pearl sized amount over face, neck and décolletage after serums.

Caution:

pH: 5.0 – 5.5

Sizes:

15g, 50g

Ingredient List: Aqua (Water), Helianthus Annuus (Sunflower) Seed Oil, Cetearyl Alcohol, Caprylic/Capric Triglyceride, Ceteareth-20, Stearic Acid, Tocopheryl Acetate, Phenoxyethanol, Butyrospermum Parkii (Shea Butter), Dimethicone, Pichia/ Resveratrol Ferment Extract, Carbomer, Citrus Reticulata (Tangerine) Peel Oil, Sodium Stearoyl Glutamate, Sodium Hydroxymethylglycinate, Caprooyl Tetrapeptide-3, Dextran, Hippophae Rhamnoides (Seabuckthorn) Fruit Oil, Macadamia Ternifolia Seed Oil, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Gluconolactone, Vitis Vinifera (Grape) Seed Extract, Terminalia Ferdinandiana (Kakadu Plum) Fruit Extract, Ethylhexylglycerin, Sodium Benzoate, Disodium EDTA.

HYDRATORS

HYDRA SHIELD WITH ZINC

A fast absorbing, lightweight moisturiser for daily use. Packed with antioxidants and botanical oils to comfort and protect all skin types.

Suitable for

- All skin types
- Ageing
- Dehydration
- Problematic
- Excess oil
- Sensitive

Performance Ingredients:

- **Zinc Oxide** | Helps to protect the skin from external free radicals.
- **Vitamin E** | A comforting antioxidant.
- **Glycerin** | Binds moisture to hydrate.

Application

Morning & Night

Gently massage a pearl sized amount over face, neck and décolletage after serums.

Caution:

pH: N/A

Size:

112g

Ingredient List: Water, Zinc Oxide, Caprylic/Capric Triglyceride, Cetearyl Olivat, Glycerin, Cyclopentasiloxane, Sorbitan Olivat, Squalane, Triticum Vulgare (Wheat) Germ Oil, Olea Europaea (Olive) Fruit Oil, Simmondsia Chinensis (Jojoba) Seed Oil, 1,2-Hexanediol, Magnesium Aluminum Silicate, Caprylyl Glycol, Glyceryl Isostearate, Fragrance, Xanthan Gum, Leuconostoc/Radish Root Ferment Filtrate, Populus Tremuloides Bark Extract, Carbomer, Citric Acid, Polyhydroxystearic Acid, Citrus Limon (Lemon) Peel Oil, Astaxanthin, Beta-Glucan (D), Citrus Aurantium Dulcis (Orange) Peel Oil, Tocopheryl Acetate (D-alpha), Tetrahydrodemethoxydiferuloylmethane, Gluconolactone, Tetrasodium EDTA, Potassium Sorbate, Tocotrienols, Elaeis Guineensis (Palm) Oil, Lonicera Caprifolium (Honeysuckle) Flower Extract, Lonicera Japonica (Honeysuckle) Flower Extract, Rosa Damascena Flower Oil, Santalum Austrocaledonicum (Sandalwood) Wood Oil, Tetrahydrobisdemethoxydiferuloylmethane, Tocopherol (D-alpha), Tropolone, Alcohol Denat., Tetrahydrodiferuloylmethane, Beta-Sitosterol.

BOOST

Enhance any daily
skincare regime with these
complementary products
designed to optimise results.

BOOST SOOTHING GEL

Help comfort stressed skin and minimise appearance of redness with this multi-purpose cooling gel. Suitable for all skin types.

Suitable for

- All skin types
- Ageing
- Dehydration
- Problematic
- Sensitive

Performance Ingredients:

- **Aloe Vera** | A natural ingredient that binds moisture to hydrate.
- **Chamomile** | Comforting for all skin types.
- **Cucumber** | To cool sensitised skin.

Application

Apply liberally as required.

For use as a mask, apply to clean skin and leave for 10-15 mins. Remove with a cloth using a gentle, sweeping action. Follow with serums and moisturiser. Leave over night to maximise hydration.

Tip: Store in fridge for additional cooling sensation. Perfect for use post hair removal, prolonged sun exposure or any other superficial skin irritation.

Cautions:

- Not to be applied post-peel or on ablated skin

pH: 4.5 – 5.5

Size:

118ml

Ingredient List: Aloe Barbadensis Leaf Extract, Water, Hamamelis Virginiana (Witch Hazel) Extract, Glycerin, Butylene Glycol, Phenoxyethanol, Alcohol, Sorbitol, Allantoin, Carbomer, Polysorbate 20, Bisabolol, Panthenol, Tocopheryl Acetate, Acrylamide/Sodium Acryloyldimethyltaurate Copolymer, Lactose, Isohexadecane, Ethylhexylglycerin, Sodium Hydroxide, Hydrolyzed Algin, Milk Protein, Polysorbate 80, Epilobium Angustifolium Flower/ Leaf/Stem Extract, Retinyl Palmitate, Sorbitan Oleate, BHT, Cucumis Sativus (Cucumber) Fruit Extract, Evodia Rutaecarpa Fruit Extract, Sodium Metabisulfite

BOOST SOOTHING BALM

Comfort stressed skin with this soothing blend of Hyaluronic Acid, Olive Oil and Aloe Vera, suitable for all skin types, even the most sensitive.

Suitable for

- All skin types
- Ageing
- Dehydration
- Problematic
- Sensitive

Performance Ingredients:

- **Aloe Vera** | A natural ingredient that binds moisture to hydrate.
- **Sodium Hyaluronate** | A form of hyaluronic acid that helps smooth the appearance of fine lines and wrinkles for a more youthful looking complexion.
- **Red Algae and Brown Algae** | Rich in vitamins and amino acids.
- **Beeswax** | A natural skin conditioner.
- **Olive Oil, Shea Butter and Cocoa Butter** | Emollient and nourishing.

Application

Apply liberally as required.

Tip: Ideal post peel or ablative laser and 24 hours post non-ablative laser and IPL to help relieve skin post treatment. Use on elbows, knees and other dry areas to boost hydration. Ideal before, during and after flying to prevent dehydration.

Cautions:

pH: 6.5 – 7.5

Size:

118ml

FOR PROFESSIONAL USE ONLY

HIGH PERFORMANCE & PROTECTION

Ultra-hydrating, lightweight and fast absorbing for all-year-round use.

Containing unique formulas enriched with antioxidants, offering broad spectrum 80min - 4-hour water resistant sun protection. Wear alone or under makeup for a sheer-glow finish.

WHY ASPECT™ SUN?

- 80 min (Physical) - 4-Hour (Chemical) water resistant UVA and UVB protection
- Broad spectrum SPF50+
- Antioxidants protect from the ageing effects of UV exposure
- Paraben Free

A test patch is advised before use of all homecare products

PERFECT PAIRING

Aspect™ Sun should be recommended and used as the final step in any daily skincare routine as it primarily protects from external factors.

Available with or without a sheer tint, Aspect™ Sun can be worn alone or under makeup as a primer to smooth and prepare the skin for makeup application.

PRODUCT INFORMATION

Our Sunscreens are Oxybenzone and Octinoxate free.

Oxybenzone and Octinoxate are the key sunscreen ingredients that have been banned from Hawaii with supporting evidence to prove their damaging effects on reef life. See link for more info https://www.huffingtonpost.com.au/entry/oxybenzone-chemical-sun-screen_n_5aeb38b0e4b0c4f1931ffce0

"As for the implication of other sunscreen actives we are constantly researching ingredients to ensure we create innovative, effective formulations and are currently investigating the science on reef safe ingredients, making sure that we are fully informed on what the facts are. This is an evolving issue and it is important to us that we are fully informed and dig deep into the research before having an absolute answer on this."

PHYSICAL SUN PROTECTION | SPF 50+

A very high protection, water resistant mineral sunscreen cream which has been specially developed to provide broad spectrum UVA and UVB SPF 50+ from the sun. Combines Zinc Oxide 22.7% and Glycerin to protect and assist with minimizing the harsh ageing effects of UV exposure. Invisible on the skin with a sheer, light finish.

Suitable for:

- All Skin Types
- Ageing
- Pigmentation
- Sensitive
- Post Treatment

Key Ingredients and Benefits:

- **Zinc Oxide (22.7%)** | Provides Broad spectrum UVA and UVB protection while protecting the skin from external free radicals.
- **Glycerin** | Binds moisture to provide long lasting hydration.

Usage:

Apply after moisturiser, liberally and evenly to all unprotected areas of the skin 20 minutes prior to sun exposure. Re-apply every 2 hours or more frequently after exercise, perspiration, swimming, and towel drying. Always wear protective clothing, a hat and eyewear when exposed to the sun and avoid prolonged exposure to the sun.

Professional Use

Gently apply to the skin post professional treatments including Medi-Facials, Peels, Microdermabrasion, and DermaFrac C (0.25mm micro-needling only). Advise client to wear protective clothing, a hat and eyewear when exposed to the sun and avoid prolonged exposure to the sun.

Cautions

For external use only. Keep out of reach of children.

Sizes:

75mL

ENVIROSTAT | SPF 50+

FACE AND ON THE GO

Envirostat SPF 50+ is a dry touch, water resistant sunscreen that combines broad spectrum sun protection with a soothing blend of antioxidants to help minimise the harsh ageing effects of UV exposure.

Available in two convenient packaging solutions.

Envirostat Face is ideal as a part of any daily skincare routine while

Envirostat On the Go makes reapplication stress free throughout the day.

Suitable for:

- All skin types
- Ageing
- Pigmentation

Key Ingredients and Benefits:

- **Octocylene, 4-Methylbenzylidene Camphor, Butyl Methoxydibenzoylmethane, Phenylbenzimidazole Sulfonic Acid** | A blend of sunscreen actives that provide very high broad spectrum sun protection
- **Aloe Vera** | Instantly cools and soothes while aiding the skin to retain supreme levels of moisture
- **Vitamin E** | Antioxidant protection, calming, barrier protecting
- **Tapioca Starch** | Provides a dry powdery finish

Usage:

Apply liberally and evenly to all unprotected areas of the skin 20 minutes prior to sun exposure. Re-apply every 2 hours or more frequently after exercise, perspiration, swimming and towel drying. Always wear protective clothing, a hat and eyewear when exposed to the sun and avoid prolonged exposure to the sun. Do not apply directly onto ablated skin, wait until it has re-epithelialised.

Reminder: Always apply prior to your moisturiser.

Note: Not suitable to be applied post peeling or needling procedures.

Sizes:

On The Go 75g

Face 75g

500g

Ingredients: Homosalate, Octocylene, Butyl Methoxydibenzoylmethane, 4-Methylbenzylidene Camphor, Diethylamino Hydroxybenzoyl Hexyl Benzoate, Purified Water, Alkyl (C12-15) Alkyl Benzoate, Aluminum Starch Octenylsuccinate, Silica Dimethyl Silylate, Cetostearyl Alcohol, PEG-30 Dipolyhydroxystearate, Polyglyceryl-3 Diisostearate, Glycerol, Sodium Chloride, Triaccontanyl PVP, Phenoxyethanol, Ethylhexylglycerin, Chlorphenesin, dl-alpha-Tocopheryl Acetate, Iodopropynyl Butylcarbamate, Dimeticone 5

HYDRATING FACE | SPF 50+

Hydrating Face SPF 50+ provides a blend of antioxidants and UV protective actives to deliver very high sun protection, as well the ultimate nourishment for skins in need of more support against the ageing and damaging effects of UV exposure. The combination of UV protection and smoothing effects of silica, allows Hydrating Face SPF 50+ to achieve an immediate even glow, preparing the skin for long lasting makeup application.

Suitable for:

- All skin types
- Ageing
- Pigmentation

Key Ingredients and Benefits:

- **Homosalate, Octocrylene Butyl Methoxydibenzoylmethane and Methylbenzylidene Camphor, Diethylamino hydroxybenzoyl hexyl benzoate** | A blend of sunscreen actives that provide very high broad spectrum sun protection
- **Glycerin** | Acts as a humectant to bind water and increase the skin's moisture content
- **Silica** | Helps to smooth the appearance of fine lines and wrinkles, to prepare the skin for makeup application and increase longevity
- **Vitamin E** | Has high potency antioxidant properties support and protect the skin from external free radicals, boosting the skin's response to environmental exposure

Usage:

Apply liberally and evenly to all unprotected areas of the skin 20 minutes prior to sun exposure. Re-apply every 2 hours or more frequently after exercise, perspiration, swimming and towel drying. Always wear protective clothing, a hat and eyewear when exposed to the sun and avoid prolonged exposure to the sun. Do not apply directly onto ablated skin, wait until it has re-epithelialised.

SUN PROTECTION POST TREATMENT

SUN PROTECTION POST TREATMENT

Complete sun avoidance is the only 100% effective method for photoprotection post procedure.

Clients should be advised to make a concerted effort to avoid sun exposure for at least 72 hours post procedure until the skin's barrier function has been restored.

Sunscreen should always be used in conjunction with other sun protection measures:

Slip: slip on sun protectant clothing to cover as much skin as possible

Slop: slop on some sunscreen at least 20 minutes prior to sun exposure using a minimum 30+ broad spectrum product; sunscreen should not be used as a standalone sun protectant strategy and should not allow for an extended period of time in the sun

Slap: slap on a hat; broad brimmed or legionnaires hat is best

Seek: seek shade and avoid all sun exposure where possible

Slide: slide on sunglasses that meet Australian Standards for UV protection

According to research, for sunscreen to be an effective physical barrier against UV rays it must be able to attach to the stratum corneum and not penetrate the epidermis.

Therefore, clients should be recommended to use only physical based sunscreens (zinc oxide or titanium dioxide) for the first 72-hours post procedure, to minimise the risk of irritation due to impaired barrier function at that time.

Application of Aspect™ Sun chemical based sunscreens should only be resumed a minimum of 72 hours post procedure once the skin is re-epithelialised.

TGA Approved

In Australia, sunscreens are regulated by the Therapeutic Goods Administration (TGA).

Due to the high UV exposure in Australia and a high incidence of skin cancer, the TGA enforce some of the strictest sunscreen laws in the world to ensure the safety of Australian consumers.

Aspect™ Sun is a primary sunscreen product and is approved by the TGA.

Aspect™ Sun is a registered trademark of Advanced Skin Technology Pty Ltd.

To the best of our knowledge all information is correct at time of printing.

aspect
MINERALS™

SKIN LOVING MINERAL MAKEUP

FOR PROFESSIONAL USE ONLY

THE MINERAL MAKEUP DIFFERENCE

Mineral Makeup is makeup composed of earth derived minerals such as iron oxides, zinc oxide and titanium dioxide that are micronized, ground or milled to create kind colour cosmetics.

- Each ingredient in every Aspect Minerals™ formulation is purposefully selected for their ability to create a positive change within the skin
- Combining science with nature's most powerful ingredients
- High performance and high integrity ingredients
- Backed by research and effective results for all skin conditions
- No animal testing
- Sustainable manufacturing methods

WHEN COMPARED WITH TRADITIONAL MAKEUP, THERE ARE THREE KEY DIFFERENCES:

1. INGREDIENTS

| MAY CONTAIN INGREDIENT | TRADITIONAL MAKEUP | MINERAL MAKEUP |
|------------------------|--------------------|----------------|
| Artificial colours | ✓ | FREE FROM |
| Parabens | ✓ | FREE FROM |
| Preservatives | ✓ | FREE FROM |
| Talc | ✓ | FREE FROM |
| Bismuth | ✓ | FREE FROM |
| Fragrance | ✓ | FREE FROM |
| Synthetic Fillers | ✓ | FREE FROM |

Mineral makeup acts as a second skin, optimising skin function and eliminating risk of congestion, sensitivity or irritation.

2. SKINCARE BENEFITS

Mineral makeup ingredients provide additional skincare benefits, supporting and enhancing results.

3. APPLICATION

Traditional makeup works like a "wall filler" sitting in pores to improve appearance, while Mineral makeup sits on the surface making it calming, protective and less likely to irritate skin.

SKIN LOVING MINERAL MAKEUP

Formulated with an ultra-fine blend of skin-perfecting minerals, hydrators and Australian botanicals, Aspect Minerals™ combines the benefits of skincare, SPF and makeup to protect, blur and reveal a radiant glow without compromising skin health. Give your clients the skin insurance and confidence they need to look and feel their best.

WHY ASPECT MINERALS™?

- Diffuses imperfections and colour-corrects
- Buildable coverage
- Environmental protection from the ageing effects of UV exposure
- Aspect Minerals™ Liquid Foundation provides SPF 15
- Aspect Minerals™ Powder Foundation provides SPF 25
- Free from: Parabens, SLS, Mineral Oil
- Vegan friendly
- Australian made

PERFECT PAIRING

Aspect Minerals™ should be recommended and used as the final step in any daily skincare routine.

The range includes a skin perfecting primer, liquid and powder foundation and a Kabuki brush. Customisable foundation results from sheer to full, buildable coverage, available in a range of shades.

PRODUCT INFORMATION

aspect
MINERALS™

KABUKI BRUSH

The perfect companion for your Aspect Minerals™ product, this Kabuki brush features soft, thick bristles for flawless product application.

Suitable for

- All skin types

Features and Benefits:

- **Synthetic Fibres** | High quality Vegan fibres provide a smooth and seamless application.

Usage

Press brush into chosen foundation and tap to remove any excess. Starting at centre of face, gently buff product into the skin moving outward using circular motions. Build coverage until desired result is achieved.

Tips

- Squeeze brush to create density and achieve more coverage
- Press thumb in centre of brush to create a dome ideal for contouring
- Sanitise brush after every use
- Deep clean with baby shampoo once a week or more often for problematic or rosacea skins

Size:

N/A

Ingredients: N/A

PRIMER

A satin-smooth primer that locks in moisture and prepares the skin for the application of your preferred Aspect Minerals™ product. Create the perfect canvas for even and smooth coverage.

Suitable for

- All skin types

Key Ingredients and Benefits:

- **Emollient Blend** | A non-greasy silicone that locks in moisture providing a smooth finish.
- **Vitamin E** | A comforting antioxidant.
- **Aspect Minerals Signature Blend** | An Australian botanical superfood complex rich in vitamins and antioxidants.

Usage

Apply a pearl sized amount to face and neck to prime the skin prior to application of Mineral powder or liquid foundation.

Size:

28ml

Ingredients: Cyclopentasiloxane (and) Dimethicone Crosspolymer, Cyclopentasiloxane, Dimethicone, Tocopherol Acetate, Lemon Myrtle Essential Oil, Davidson Plum Extract, Mountain (Tasman) Pepper Berry Extract & Kakadu Plum Extract.

LIQUID with SPF 15

A liquid mineral foundation that evens out skin tone with a light to medium buildable coverage. Formulated with potent antioxidants and hydrators, it works to protect and hydrate the skin while achieving a smooth, glowing complexion.

Suitable for

- All skin types

Key Ingredients and Benefits:

- **Earth-Derived Mineral Blend** | An ultra-fine blend of Zinc Oxide, Titanium Dioxide and Mica that help to protect the skin from external free radicals.
- **Kaolin Clay** | Helps target excess oil and impurities.
- **Hyaluronic Acid** | Helps smooth the appearance of fine lines and wrinkles.
- **Aspect Minerals Signature Blend** | An Australian botanical superfood complex rich in vitamins and antioxidants.

Usage

Apply to centre section of face using fingers or kabuki brush, blending outward on the face and under the jawline. Build on application as required.

Tips

- Ideal for dry skin

Size:

28ml

Available in:

10 Shades

Ingredients: Aqua, Cyclomethicone, Glycerin, Titanium Dioxide, C12-15 Alkyl Benzoate, Caprylic Acid, Methylpolysiloxane, Mica, Zinc Oxide, Rice Powder, Magnesium Myristate, Kaolin Clay, Boron Nitride, Magnesium Sulphate Heptahydrate, Isopropyl Myristate, Methylchloroisothiazolinone, Methylisothiazolinone, Magnesium Stearate, Iron Oxides, Camellia Sinensis Leaf Extract, Marigold Extract, Squalane, Allantoin, Hyaluronic Acid, Lemon Myrtle Oil, Davidson Plum Extract, Mountain (Tasman) Pepper Berry Extract, Kakadu Plum Extract. May contain: [C.I. 77007 (Ultramarine Blue)]

aspect MINERALS™

ASPECT MINERALS™ LIQUID FOUNDATION

LOOSE POWDER with SPF 25

A loose mineral powder foundation that diffuses the appearance of redness and discolouration. Provides sheer to medium buildable coverage. The perfect result with a flawless finish. Available in ten colours.

Suitable for

- All skin types

Key Ingredients and Benefits:

- **Earth-Derived Mineral Blend |**
An ultra-fine blend of Zinc Oxide, Titanium Dioxide and Mica that help to protect the skin from external free radicals.
- **Kaolin Clay |** Helps target excess oil and impurities.
- **Hyaluronic Acid |** Helps smooth the appearance of fine lines and wrinkles.
- **Aspect Minerals Signature Blend |**
An Australian botanical superfood complex rich in vitamins and antioxidants.

Usage

Using the Kabuki Brush, press powder onto brush and tap off any excess back into the lid. Starting at centre of face, gently buff product into the skin moving outward using circular motions. Build coverage until desired result is achieved.

Tips

- Ideal for oily skin
- Combine with primer to create a BB Cream finish
- Use over liquid for full coverage

| | | |  Six N |  Six W | |

Identifying the right shade for your client

1. Following a quick consultation, select the three closest shades to the client's skin tone.
2. Line the selected shades up in order number.
3. Using cotton tips for liquid foundations and a Kabuki Brush for powder foundations, apply products in order of shade number in three vertical lines down the lower cheek / jawline, leaving space between each line.
4. Allow to settle on skin to reveal true colour.
5. Provide a mirror to the client and work together to determine the most suitable shade, taking into consideration skin tone and personal preference.

SANITISING BRUSHES

Tester brushes **MUST** be sanitised immediately after each client.

1. Take 1-2 tissues and lie on a flat surface.
2. Spray brush cleaner or isopropyl alcohol solution directly onto tissue.
3. Brush kabuki brush back and forth on tissue, keeping brush flat.
4. Repeat until all pigment is left on the tissue.
5. Lie brush on side and allow to dry.

ASPECT MINERALS™ CONFIDENCE CODE

The Aspect Minerals™ Confidence Code gives clinics confidence knowing that their client's skin is protected and clients confidence knowing that any post treatment redness is concealed.

Aspect Minerals™ Powder can be applied to the skin post any superficial treatment.

1. Colour match client after 1st cleanse and before 2nd cleanse, before any potential erythema. This works best as most clients will have make-up on. Inform the client that you will be applying minerals post treatment for added protection allowing them to get on with their day. Establishing undertones is key and aligned with personal preference - Would they like to be matched to their true skin tone or a little warmer?

See quick consult below to aid in retail sales. Always encourage the client to purchase Aspect Minerals™ to not only protect skin and enhance results but that way, during application their own brush and product can be used for best hygiene practice.

2. After application of finishing products, gently tap out a small amount of the selected loose powder shade on to a tissue.
3. Using client's own Aspect Minerals™ Kabuki Brush, tester or disposable Kabuki Brush, press powder onto brush and tap off any excess. Demonstrate how to use the Kabuki brush and explain why the Aspect Minerals™ Kabuki is specifically designed to complement the minerals and achieve flawless application.

Tester brushes MUST be sanitised immediately after each client. A quick dry brush cleanser is recommended and available from all good beauty suppliers.

4. Starting at the centre of the face, gently buff product into the skin moving outward using circular motions, this warms the minerals and creates a luminous skin like finish. Continue to apply to the neck and chest. Build coverage until desired result is achieved.

THE QUICK CONSULT THAT GETS SALES - Add to skin consultation or great for walk in opportunity.

- Tell me about your current makeup routine?
- Do you like your foundation to match your skin perfectly or do you like it a bit warmer?
- What kind of coverage do you prefer; light, medium or full?
- Do you prefer a dewy or matte finish?
- Are you planning on regular spray tans this summer?

TREATMENT PROTOCOLS

aspectTM
PROFESSIONAL

INTRODUCTION TO ASPECT™ PROFESSIONAL PEEL PROTOCOLS

Aspect™ Professional treatments combine active ingredients with calming antioxidants for a progressive not aggressive approach to sustainable skincare results.

Formulated by clinicians for clinicians, Aspect™ Professional is designed to make treatment planning simple yet effective. All Aspect™ peels utilise specific exfoliating agents according to skin type or concern leading to skin rejuvenation.

PROTOCOL NAVIGATOR

A guide to planning an Aspect™ Professional skin journey.

LEVEL 1 – CUSTOM FACIAL TREATMENT

- Hydrating Facial
- Probiotic Facial
- Luxe Facial
- Lactobotanical 20% Peel

LEVEL 2 – PEELS

- Lactobotanical 30% Peel
- Lactobotanical 40% Peel

LEVEL 3 – PEELS

- Problem Skin Peel
- Pigment Peel
- Triple Action Peel

LEVEL 3+ – ADVANCED PEELS

- Power Peel

LEVEL 4 – ADVANCED PEELS

- Lactobotanical 60% Peel (*Physician Only*)

MODALITY

- Epidermal Levelling

PRECAUTIONS AND CONTRAINDICATIONS

ABSOLUTE CONTRAINDICATIONS

- Significant immunosuppression caused by disease states (HIV) or medication.
- Ehlers-Danlos syndrome.
- Scleroderma or collagen vascular diseases.
- Roaccutane treatment within 6-12 months of use.
- For superficial peels a wait of 3-6 months post-surgical procedures.
- History of hypertrophic or keloid scarring especially in the treatment region.
- Current presence of malignancy or undiagnosed lesions in the treatment area.
- Use of anti-mitotic and cancer medication within the past 12 months (chemotherapy and radiation) - seek medical guidance.
- Active infection at the treatment site: grade 4 acne, herpes simplex virus, bacterial and fungal infections.
- Use of photosensitising medication.
- Client unrealistic expectations of the treatment.

CONTRAINDICATIONS

- Medical conditions that may compromise or delay wound healing and/or cause complications.
- E.g. diabetes, autoimmune disease, allergies, cancer, lupus.
- Current use of some medications. E.g. photosensitising drugs, antibiotics.
- Patient not willing to be compliant with instructions of pre and post treatment care including sun exposure.
- Pregnancy and breastfeeding (unless under medical guidance with a doctor's clearance).
- Emotional instability or mental illness (uncontrolled).
- Allergic reaction to product ingredients.
- Autoimmune disorders.
- Hepatitis C.
- Broken, damaged or abraded skin within the treatment area.
- Application of the peel within the orbital rim.

PRECAUTIONS

- History of skin disorders such as rosacea, dermatitis, eczema and psoriasis.
- Use of topical prescription retinoid products - seek medical guidance.
- Medications such as antibiotics, anti-inflammatories or blood thinners.
- Poor lifestyle choices such as smoking, poor diet, (lack of protein and H2O especially), lack of sleep, fatigue, exhaustion, UV exposure and previous product usage.
- Fitzpatrick skin types IV-VI.

Although the list of contraindications and precautions is extensive it is not exhaustive or conclusive. Please apply universal precautions, contraindications and professional judgment in all circumstances and assess each client on a case by case basis.

Always refer for medical guidance where necessary.

The golden rule of peeling is.... "If in doubt, leave it out".

PRE TREATMENT CONSIDERATIONS

6 – 12 MONTHS PRIOR TO TREATMENT

- Use of oral isotretinoin.
- Full ablative laser resurfacing.

3 – 6 MONTHS PRIOR TO TREATMENT

- Medical Needling.
- Fractional ablative laser resurfacing.
- Deep peeling procedures.
- Facial surgery (unless under medical guidance).

4 WEEKS PRIOR TO TREATMENT

- Caution: IPL and laser skin rejuvenation (unless under medical guidance).
- Medium Depth Peels.
- Microneedling procedures.

2 WEEKS PRIOR TO TREATMENT

- Waxing, electrolysis, bleaching, depilatory procedures.
- Dermal fillers within the treatment area.
- Caution: Laser and IPL procedures (unless under medical guidance).
- Caution: Facial treatments: Chemical peels, microdermabrasion, epidermal levelling (unless under medical guidance).
- Ensure client is avoiding sun exposure.

1 WEEK PRIOR TO TREATMENT

- Avoid the following: sun exposure, anti-wrinkle injections, home needling, hair bleaching or dyeing.
- Cease cosmetic vitamin A products 3-5 days pre-procedure.
- Seek medical advice for prescription Vitamin A products.
- Over exfoliation of the skin.
- Ensure client is avoiding sun exposure.

DAY OF TREATMENT

- Check that client has been following priming regime.
- Ensure client is avoiding sun exposure.
- Avoid home skin exfoliation.
- Check skin reactivity to skin priming products and immediately pre-treatment.
- Avoid exercise pre-treatment.

POST TREATMENT CONSIDERATIONS

IMMEDIATELY FOLLOWING TREATMENT AND FOR 72 HOURS

- Apply Aspect™ Sun Physical Sun Protection SPF50+ Sunscreen Cream only as recommended. Aspect Minerals™ Powder SPF25 may also be applied post superficial treatment.
- Avoid hot showers and saunas and exercise that induces sweat.
- Avoid exfoliating and highly fragranced products; certain skincare ingredients: artificial colours, alcohols, lanolin, petroleum, chemical sunscreens, benzoyl peroxide and hydroquinone.
- Avoid non-recommended makeup and skincare products.
- Avoid all Vitamin A, AHAs and BHA products.
- Avoid anti-wrinkle injections, dermal fillers and other skin treatments including, peels, laser/IPL, facials, needling, microdermabrasion and epidermal levelling.
- Avoid shaving and waxing in the area of treatment.
- Do not scratch, pick, pull at or abrade the treated skin.

DAYS 4 – 7 POST TREATMENT

- Avoid sun exposure and use strict sun protection strategies. May recommence using Chemical Sunscreen.
- Avoid exfoliating and highly fragranced products.
- Commence normal skincare routine as deemed safe.
- Avoid skin treatments of all varieties: peels, laser/IPL, facials, needling, microdermabrasion and epidermal levelling.
- Avoid shaving and waxing in the area of treatment.
- Do not scratch, pick, pull at or abrade the treated skin.

DAY 7 ONWARDS POST TREATMENT

- Recommence well rounded daily sun protection. See Aspect™ Professional sun protection protocol below.
- Waxing, electrolysis and depilatory procedures and also bleaching or hair dyeing in the area of treatment needs to be avoided for 2 weeks post treatment.
- Peels, microdermabrasion, epidermal levelling, home needling and dermal fillers need to be avoided for at least 2 weeks post treatment.
- IPL/Laser Skin Rejuvenation, in clinic needling, fractional ablative, full ablative laser and surgery in the area of treatment needs to be avoided for up to 4 weeks post treatment - assess safe periods on a case by case basis.

SKIN PRIMING

All clients must be primed on the appropriately prescribed home care, including sun protection for between 2 to 4 weeks prior to treatment in order to:

- Achieve an even depth of action
- Achieve the best results
- Reduce the risk of an adverse response
- Minimise recovery time

Regimes will vary depending on skin condition and may include ingredients such as:

- **AHA's:** To refine the skin surface, improving depth and uniformity of the peel.
- **Vitamin A:** Products to refine the skin surface, improving treatment uniformity and recovery.
- **Pigment Products:** For Fitzpatrick Skin Types III - VI or those patients with a history of post inflammatory hyperpigmentation. Twice daily application for at least 14 days pre and post peels is advised.
- **Prophylactic Antivirals:** For patients with recurrent Herpes Simplex. Preparation for several days pre and post treatment is recommended following permission of the patient's physician. Lysine is also recommended for less severe cases.

PATCH TESTING

Aspect™ Professional always recommends performing a patch test before providing treatment. Clients are becoming more allergic and reactive to known and unknown substances, therefore a patch test is the only way to ensure client safety and an effective treatment. Maximise client's first consultation or Aspect™ Professional Custom Facial Treatment and perform a patch test during either appointment.

How to perform a patch test:

1. Cleanse the area to be tested. It may be the side of the neck close to jawline or inner elbow region.
2. Apply Aspect™ Professional Peel Preparation with 2x2 gauze.
3. Apply peel solution chosen during client consultation (if testing multiple solutions, always take notes.)
4. Neutralise Lactobotanical Peels with Aspect™ Professional Neutralise (Salicylic based and Vitamin A peels do not require neutralising. These should be left on skin unless an adverse reaction is observed.)
5. Wait 10 minutes to assess the area.

Once patch test is complete, look for the following within 10 minutes - 72 hours:

- Red, itchy bumps
- Welts
- Hives
- Extreme redness

Always follow up with client, it is important to keep lines of communication open. If no reaction occurs, it is safe to proceed with peel. However, should an adverse reaction occur it is recommended to patch test other options.

Note: Please refer to Power Peel protocols for neutralising instructions during patch testing.

PEEL PREPARATION

Peel Preparation is the action of degreasing the skin of excess oil to maximise penetration of ingredients and enhance results.

Degreasing the skin has several purposes:

- Remove residual oil from skin surface allowing professional treatments to work more effectively.
- Helps prepare skin for professional treatments.
- Helps to keep skin from reacting to low pH products like peels.

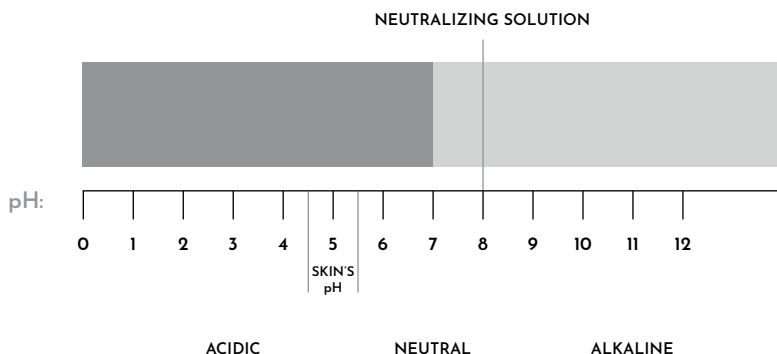

NEUTRALISING

Neutralising the skin is the action of balancing the skin's pH to stop any further activity of exfoliating ingredients, to minimise risk of a compromised skin barrier and possible adverse reactions.

Neutralising the skin has several purposes:

- Required to stop peeling process of Aspect™ Professional Lactobotanical™ Peels.
- May be used immediately to deactivate any peel at the sign of any adverse response.
- May be used for desincrustation before extractions.

Aspect™ Professional Neutralise may be applied directly over treated areas with 2 x saturated cotton pads. It is common for clients to experience a slight tingling sensation after application, however this sensation should subside quickly. There is no need to remove neutralising solution however, if client is still uncomfortable a cool compresses may also be applied.

OCCLUDING

Occlusion is the action of protecting. Peel solutions have the ability to migrate. To avoid adverse reactions, sensitive areas of the face should be protected.

Before any Aspect™ Professional Peel Treatments, Aspect™ Professional Soothing Balm should be applied to the following areas:

- Eyebrows
- Outer corners of eye
- Outer corners of lips
- Outer corners of nose

Soothing Balm will help protect these sensitive areas from adverse reactions during treatment and should be removed post treatment.

FINISHING PRODUCTS

All **Aspect™ Professional Custom Facial Treatments** can be finished with:

- Hyaluronic Hydrating Serum
- Redless
- Super Moisturising Complex

Alternatively, an Aspect™ moisturiser tailored to the client's skin may also be applied. Followed with an application of Aspect™ Sun Physical Protection SPF 50+ Sunscreen Cream.

All **Aspect™ Professional Peel Treatments** can be finished with:

- Hyaluronic Hydrating Serum
- Redless
- Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream

ASPECT MINERALS™ CONFIDENCE CODE

The Aspect Minerals™ Confidence Code gives clinics confidence knowing that their clients skin is protected and clients confidence knowing that any post treatment redness is concealed for them to carry on with their days.

Aspect Minerals™ Powder can be applied to the skin post any superficial treatment.

LACTOBOTANICAL VS SALICYLIC BASED PEELS VS PHYTO RETINOID PEEL

INCORPORATING MODALITIES

Epidermal Levelling

Epidermal Levelling is an exfoliating treatment that uses a medical grade blade in a shaving motion to remove fine facial hair and surface dead skin cells. This creates an extremely smooth surface that aids in product penetration and results in glowing skin.

Refer to Aspect™ Professional Epidermal Levelling Protocol.

WHAT TO EXPECT AFTER ASPECT™ PROFESSIONAL PEELS

Every clients experience will be different. The below is only a guide of what to expect 0 - 10 days post Aspect™ Professional Peel Treatments.

Immediately post treatment

- May experience zero flaking - light flaking.
- Skin may feel sensitive for 24-48 hours.

Day 1 Post Treatment

- Skin may be flushed, possible redness.

Day 2 Post Treatment

- Skin may feel tight.
- Dryness may occur.

Day 3 - 7 Post Treatment

- Peeling may begin around the mouth and chin area and move outward until complete.

Day 7 - 10 Post Treatment

- Light flaking may still occur around perimeter of the face.
- May gradually re-introduce AHA/ BHA and Vitamin A products if there is no irritation and peeling has ceased.

PROFESSIONAL ONLY PRODUCTS

aspect[™]
PROFESSIONAL

ASPECT™ PROFESSIONAL PEEL PREPARATION

An exfoliating, degreasing agent designed to lift off surface oils and dead skin cell build up, to prepare skin for treatment and maximise results.

Suitable for

- All skin types

Key Ingredients and Benefits:

- **Wheat Derived Alcohol** | Works as an effective degreasing agent to assist in product penetration.
- **Niacinamide** | Vitamin B3 to help maintain hydration and nurture skin.
- **Salicylic Acid** | A BHA that works to lift build-up of dirt and debris.
- **Lemon Tea Tree Oil** | A purifying antioxidant.

Usage

For professional use only. See Aspect™ Professional Protocols for usage according to treatment.

Cautions:

- In case of an adverse response, remove immediately and do not proceed with a peel.
- May cause erythema.

pH: 3.5 – 4.5

Size

500ml

Ingredient List: Alcohol, Water, Niacinamide, Polysorbate 20, Salicylic Acid, Leptospermum Petersonii (Lemon Scented Tea Tree) Oil, t-Butyl Alcohol

ASPECT™ PROFESSIONAL NEUTRALISE

An alkaline solution that neutralises the skin's pH to stop any further activity of exfoliating ingredients. May also be used for desincrustation before extractions.

Suitable for

- All skin types

Key Ingredients and Benefits:

- **Sodium bicarbonate** | Has an alkalizing effect to inhibit the action of a chemical peel by neutralising the acid.
- **Canadian Willowherb™ Extract** | A comforting antioxidant.
- **Polysorbate** | A stabilizer that helps minimise risk of adverse effects on the skin.

Usage

For professional use only. See Aspect™ Professional Protocols for usage according to treatment.

Caution:

- Not recommended for neutralising Power Peel.

pH: 7.5 – 8.5

Size

500ml

Ingredient List: Water, Sodium Bicarbonate, Polysorbate 20, Phenoxyethanol, Epilobium Angustifolium (Willowherbs) Extract, Ethylhexylglycerin, Sodium Metabisulfite

ASPECT™ PROFESSIONAL GENTLE CLEANSER

Cleanse and remove makeup with this gentle cleanser. Hydrating and nurturing. Suitable for even the most sensitive skin.

Suitable for

- All skin types
- Dehydrated
- Sensitive

Key Ingredients and Benefits:

- **Glycerin** | Binds moisture to hydrate.
- **Canadian Willowherb™ Extract** | A comforting antioxidant.
- **Kakadu Plum** | Rich source of Vitamin C.

Usage

See Aspect™ Professional Protocols for usage according to treatment.

pH: 4.5 – 5.5

Size

500ml

Ingredient List: Water, Glycerin, Lauryl Glucoside, Cocamidopropyl Betaine, Sodium Cocoamphoacetate, Disodium Cocoamphoacetate, Lactic Acid, Coco-Glucoside, Phenoxyethanol, Glyceryl Oleate, Sodium Cocoyl Glutamate, Sodium Lauryl Glucose Carboxylate, Citrus Reticulata (Tangerine) Peel Oil, Epilobium Angustifolium Flower/Leaf/Stem Extract, Terminalia Ferdinandiana (Kakadu Plum) Fruit Extract, Ethylhexylglycerin, Sodium Metabisulfite

ASPECT™ PROFESSIONAL PURASTAT 5

A gentle exfoliating foaming cleanser that thoroughly frees skin of embedded dirt, makeup, excess oil and environmental pollutants without stripping the skin.

Suitable for

- All Skin Types
- Excess oil
- Problematic

Key Ingredients and Benefits:

- **L-Lactic Acid** | An AHA that helps to refine and exfoliate.
- **Organic Hydrofoam™** | A natural SLS alternative derived from coconut.
- **Canadian Willowherb™ Extract** | A comforting antioxidant.

Usage

See Aspect™ Professional Protocols for usage according to treatment.

pH: 3.5 – 5.0

Size

500ml

Ingredient List: Water, Glycerin, Caprylyl/Capryl Glucoside, Cocamidopropyl Betaine, Sodium Lauroamphoacetate, Lactic Acid, Sodium Chloride, Xanthan Gum, Phenoxyethanol, Sodium L-Lactate, Potassium Sorbate, Citrus Reticulata (Tangerine) Peel Oil, Disodium EDTA, Ethylhexylglycerin, Backhousia Citriodora (Lemon Myrtle) Leaf Oil, Vaccinium Myrtillus (Bilberry) Fruit Extract, Polysorbate 80, Saccharum Officinarum (Sugar Cane) Extract, Alcohol, Citrus Aurantium Dulcis (Orange) Fruit Extract, Citrus Limon (Lemon) Fruit Extract, Epilobium Angustifolium (Canadian Willowherb) Extract, Acer Saccharum (Sugar Maple) Extract, Termiforlia Ferdinandiana (Kakadu Plum) Fruit Extract, Chlorophyllin- Copper Complex, Sodium Metabisulphite, Urtica Dioica (Nettle) Root Extract, Citric Acid

ASPECT™ PROFESSIONAL DEEP CLEAN (*Physician Only*)

A purifying cleanser formulated with a blend of naturally occurring AHA's and Lanablue™, known for its retinoid-like properties to exfoliate and refine skin.

Suitable for:

- All skin types
- Problematic
- Pigmentation

Key Ingredients and Benefits:

- **L-Lactic Acid** | An Alpha Hydroxy Acid that assists with micro-exfoliation, improving skin texture.
- **Organic Hydrafoam™** | A coconut and cane sugar derived SLS alternative.
- **Canadian Willowherb™ Extract** | A botanical antioxidant that soothes and comforts the skin.
- **Lanablue™ (Aphanizomenon Flos-Aquae Extract)** | A blue-green algae, known for its Retinol-mimicking ability

Usage:

See Aspect™ Professional Protocols for usage according to treatment.

Caution:

pH: 3.5 – 5.0

Size:

500ml

Ingredient List: Water, Glycerin, Caprylyl/Capryl Glucoside, Cocamidopropyl Betaine, Sodium Lauroamphoacetate, Lactic Acid, Sodium Chloride, Xanthan Gum, Phenoxyethanol, Sodium Lactate, Citrus Reticulata (Tangerine) Peel Oil, Potassium Sorbate, Disodium EDTA, Ethylhexylglycerin, Epilobium Augustifolium (Canadian Willowherb) Extract, Vaccinium Myrtillus (Bilberry) Fruit Extract, Saccharum Officinarum (Sugar Cane) Extract, Citrus Aurantium Dulcis (Orange) Fruit Extract, Citrus Limon (Lemon) Fruit Extract, Acer Saccharum (Sugar Maple) Sap Extract, Aphanizomenon Flos-Aquae Extract, Sorbitol, Sodium Metabisulfite

ASPECT™ PROFESSIONAL HYALURONIC HYDRATING SERUM

A skin quenching serum containing hyaluronic acid to bind moisture and replenish hydration.

Suitable for

- All skin types
- Ageing
- Dehydration
- Problematic
- Sensitive

Key Ingredients and Benefits:

- **Hyaluronic Acid blend (Cristalhyal (Sodium Hyaluronate) and PrimalHyal 50 (Hydrolyzed Hyaluronic Acid))** | A blend of high molecular and low molecular weight forms of hyaluronic acid that help to smooth the appearance of fine lines and wrinkles.
- **Niacinamide** | Vitamin B3 to help maintain hydration and nurture skin.
- **Vitamin C** | An oil soluble antioxidant that is pH neutral and helps to illuminate and protect skin.
- **Aspect™ Signature Blend** | Certified organic Australian superfood complex.

Usage

For professional use only. See Aspect™ Professional Protocols for usage according to treatment.

pH: 5.0 – 6.0

Size

100ml

Ingredient List: Water, Aloe Barbadensis Leaf Juice, Glycerin, Acacia Gum, Xanthan Gum, Phenoxyethanol, Panthenol, Tocopheryl Acetate, Sodium Hyaluronate, Hydrolyzed Hyaluronic Acid, Epilobium Angustifolium Flower/Leaf/Stem Extract, Niacinamide, Ethylhexylglycerin, Terminalia Ferdinandiana (Kakadu Plum) Fruit Extract, Backhousia Citriodora (Lemon Myrtle) Leaf Extract, Tasmannia Lanceolata (Mountain Pepper) Berry Extract, Citrus Glauca (Desert Lime) Fruit Extract, Davidsonia Jerseyana (Davidson Plum) Fruit Extract, Ascorbyl Tetraisopalmitate, Potassium Sorbate, Sodium Metabisulfite.

ASPECT™ PROFESSIONAL REDLESS

A multi-purpose oil formulated with essential fatty acids and antioxidants to nurture and protect skin from sensitising environmental effects.

Suitable for

- All skin types
- Ageing
- Dehydrated
- Sensitive

Key Ingredients and Benefits:

- **Botanical Complex** | Combines 21 plant based extracts including Sea Buckthorn to deliver protective antioxidant properties.
- **Coenzyme Q10** | Helps promote elasticity for a more youthful looking appearance.
- **Vitamin C & E** | Comforting antioxidants.

Usage

See Aspect™ Professional Protocols for usage according to treatment.

Caution:

- Not suitable for application immediately post DermaFrac™ C or needling.

pH: N/A

Size

100ml

Ingredient List: Caprylic/Capric Triglyceride, Oryza Sativa (Rice) Bran Oil, Hippophae Rhamnoides Fruit Oil, Tocopheryl Acetate, Ascorbyl Tetraisopalmitate, Ubiquinone, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Lavandula Angustifolia (Lavender) Oil, Pogostemon Cablin (Patchouli) Leaf Oil, Terminalia Ferdinandiana (Kakadu Plum) Seed Oil, Calendula Officinalis Flower Extract, Mentha Viridis (Spearmint) Leaf Oil, Achillea Millefolium (Yarrow) Oil, Anthemis Nobilis (Roman Chamomile) Flower Oil, Citrus Aurantium Amara (Bitter Orange) Peel Oil, Callitris Columellaris (Cyprus) Leaf/Twig Oil

ASPECT™ PROFESSIONAL FRUIT ENZYME MASK

Invigorate skin with this exfoliating gel-mask. Harnessing the power of fruit enzymes to help remove lifeless skin cells, revealing a smoother, more radiant looking complexion.

Suitable for

- All skin types
- Ageing
- Pigmentation

Key Ingredients and Benefits:

- **Fruit Enzyme Complex** | A blend of Pineapple, Grapefruit, Pomegranate, Acai Berry and Cranberry to help smooth skin texture.
- **Coffee Extract** | Helps to re-energise skin.
- **Vitamin Complex** | A powerhouse blend of vitamins A, B, C and E to maintain hydration and nurture skin.

Usage:

See Aspect™ Professional Protocols for usage according to treatment.

Tip: For sensitive skin, apply and do not massage.

pH: 5.5 – 6.5

Size:

236g

Ingredient List: Water, Butylene Glycol, Aloe Barbadensis Leaf Extract, Carbomer, Panthenol, Retinyl Palmitate, Phenoxyethanol, Sodium Hydroxide, Caprylyl Glycol, Glycerin, Decyl Glucoside, Sorbic Acid, Lauryl Glucoside, Tocopheryl Acetate, Triethyl Citrate, Alcohol Denat., Coffea Arabica (Coffee) Seed Extract, Vitis Vinifera (Grape) Fruit Extract, Vaccinium Macrocarpon (Cranberry) Fruit Extract, Ascorbic Acid, Papain, Lactobacillus/Punica Granatum Fruit Ferment Extract, Biosaccharide Gum-1, Camellia Sinensis Leaf Extract, Citrus Grandis (Grapefruit) Fruit Extract, Euterpe Oleracea Pulp Powder, Caprylic/Capric Triglyceride, Citrus Aurantium Dulcis (Orange) Peel Extract, Rubus Idaeus (Raspberry) Leaf Extract, Theobroma Cacao (Cocoa) Extract, Ananas Sativus (Pineapple) Fruit Extract, Emblica Officinalis Fruit Extract, Leuconostoc/Radish Root Ferment Filtrate, Lycium Barbarum Fruit Extract, Myrciaria Dubia Fruit Extract, Terminalia Ferdinandiana Fruit Extract, Caramel, Cyanocobalamin, Red 40, Yellow 5

ASPECT™ PROFESSIONAL SOOTHING GEL

A multi-purpose cooling gel that comforts and hydrates. Can be used on face and body, suitable for even the most sensitive skin.

Suitable for:

- All skin types

Key Ingredients and Benefits:

- **Aloe Vera** | A natural ingredient that binds moisture to hydrate.
- **Chamomile** | Comforting for all skin types.
- **Cucumber** | To cool sensitised skin.

Usage:

See Aspect™ Professional Protocols for usage according to treatment.

Tip: Store in fridge for additional cooling sensation.

Cautions:

- Not to be applied post peel or on ablated skin.

pH: 4.5 – 5.5

Size:

473ml

Ingredient List: Aloe Barbadensis Leaf Juice, Water, Hamamelis Virginiana (Witch Hazel Extract, Glycerin, Butylene Glycol, Phenoxyethanol, Alcohol, Sorbitol, Allantoin, Carbomer, Polysorbate 20, Bisabolol, Panthenol, Tocopheryl Acetate, Acrylamide/Sodium Acryloyldimethyltaurate Copolymer, Lactose, Isohexadecane, Ethylhexylglycerin, Sodium Hydroxide, Hydrolyzed Algin, Milk Protein, Polysorbate 80, Epilobium Angustifolium Flower/Leaf/Stem Extract, Retinyl Palmitate, Sorbitan Oleate, BHT, Cucumis Sativus (Cucumber Fruit Extract, Evodia Rutaecarpa Fruit Extract, Sodium Metabisulfite

ASPECT™ PROFESSIONAL HYDRATING MASK

A luxurious, hydrating mask formulated with a blend of vitamins, antioxidants and nourishing shea butter to help combat the visible signs of ageing.

Suitable for:

- All skin types
- Dehydrated
- Dry

Key Ingredients and Benefits:

- **Vitamin A, B, C & E** | A powerhouse vitamin complex to help smooth skin texture and illuminate appearance.
- **Shea Butter** | For intense hydration.
- **Sodium Hyaluronate** | A form of hyaluronic acid that helps smooth the appearance of fine lines and wrinkles.

Usage:

For professional use only. See Aspect™ Professional Protocols for usage according to treatment.

Caution:

pH: 5.75 – 6.75

Size:

236ml

Ingredient List: Water, Glycerin, Helianthus Annuus (Sunflower) Seed Oil, Olea Europaea (Olive) Fruit Oil, Vitis Vinifera (Grape) Fruit Extract, Cetearyl Alcohol, Dimethicone, Butyrospermum Parkii (Shea) Butter, Glycereth-26, Triethanolamine, Phenoxyethanol, Carbomer, Polysorbate 60, Panthenol, Citrus Aurantium Dulcis (Orange) Peel Oil, Citrus Reticulata (Tangerine) Peel Oil, Ethylhexylglycerin, Simmondsia Chinensis (Jojoba) Seed Oil, Tetrasodium EDTA, Citrus Limon (Lemon) Peel Oil, Retinyl Palmitate, Tocopheryl Acetate, Sodium Hyaluronate, Glycosaminoglycans, Ascorbic Acid, Biosaccharide Gum-1, Camellia Sinensis (Camillea) Leaf Extract, Echinacea Angustifolia (Coneflower) Extract, Salix Nigra (Willow) Bark Extract, Symphytum Officinale (Comfrey) Rhizome/Root Extract, Benzoic Acid, Dehydroacetic Acid

ASPECT™ PROFESSIONAL PROBIOTIC MASK

An invigorating mask that delivers an Infusion of essential nutrients, probiotics and antioxidants to reveal a radiant glow.

Suitable for:

- All skin types
- Dry
- Dehydrated
- Sensitive

Key Ingredients and Benefits:

- **ProRenew Complex CLR™ (Lactococcus Ferment Lysate)** | A probiotic to deliver nutrients and protect skin from external free radicals.
- **Fruit Enzyme Complex** | A blend of Pomegranate and Acai Berry, high in antioxidants.
- **Vitamin B5** | To help maintain hydration and nurture skin.

Usage:

See Aspect™ Professional Protocols for usage according to treatment.

Caution:

pH: 5.0 – 6.0

Size:

236ml

Ingredient List: Water, Glycerin, Aloe Barbadensis Leaf Juice, Helianthus Annuus (Sunflower) Seed Oil, Olea Europaea (Olive) Fruit Oil, Cetearyl Alcohol, Lactococcus Ferment Lysate, Coco-Caprylate/Caprate, Dimethicone, Butyrospermum Parkii (Shea) Butter, Glycereth-26, Vitis Vinifera (Grape) Seed Oil, Phenoxyethanol, Triethanolamine, Carbomer, Polysorbate 60, Argania Spinosa (Argan) Kernel Oil, Hippophae Rhamnoides (Sea Buckthorns) Fruit Oil, Panthenol, Citrus Aurantium Dulcis (Orange) Peel Oil, Citrus Grandis (Grapefruit Peel) Oil, Bifida Ferment Lysate, Disodium EDTA, Ethylhexylglycerin, Phenethyl Alcohol, Citrus Aurantium Bergamia (Bergamot) Fruit Oil, Lactose, Milk Protein, Gamma Polyglutamic Acid, Lactic Acid, Epilobium Angustifolium (Willowherb) Extract, Sodium Hyaluronate, Tetrahexyldecyl Ascorbate, Tocopherol, Sodium Chloride, Sodium Benzoate, Biosaccharide Gum-1, Camellia Sinensis (Camillea) Leaf Extract, Euterpe Oleracea (Acai Palm) Fruit Extract, Punica Granatum (Pomegranate) Extract, Sodium Metabisulfite

ASPECT™ PROFESSIONAL SOOTHING BALM

Comfort stressed skin with this soothing blend of Hyaluronic Acid, Olive Oil and Aloe Vera, suitable for even the most sensitive complexions.

Suitable for:

- All skin types

Key Ingredients and Benefits:

- **Aloe Vera** | A natural ingredient that binds moisture to hydrate.
- **Sodium Hyaluronate** | A form of hyaluronic acid that helps smooth the appearance of fine lines and wrinkles for a more youthful looking complexion.
- **Red Algae and Brown Algae** | Rich in vitamins and amino acids.
- **Beeswax** | A natural skin conditioner.
- **Olive Oil, Shea Butter and Cocoa Butter** | Emollient and nourishing.

Usage:

See Aspect™ Professional Protocols for usage according to treatment

Tip: Ideal post peel or ablative laser and 24 hours post non-ablative laser and IPL to help relieve skin post treatment. Use on elbows, knees and other dry areas to boost hydration. Ideal before, during and after flying to prevent dehydration.

Cautions:

pH: 6.5 – 7.5

Size:

236ml

Ingredient List: Aloe Barbadensis (Aloe Vera) Leaf Extract, Water, Hydrogenated Castor Oil, Ricinus Communis (Castor) Seed Oil, Glycerin, Beeswax, Olea Europaea (Olive) Fruit Oil, Butyrospermum Parkii (Shea) Butter, Jojoba Esters, Triethanolamine, Hypnea Musciformis (Red Algae) Extract, Theobroma Cacao (Cocoa) Seed Butter, Fucus Serratus (Serrated Wrack) Extract, Carbomer, Phenoxethanol, Sargassum Filipendula (Brown Seaweed) Extract, Tocopheryl Acetate, Sorbitol, Lactose, Allantoin, Gellidiera Acerosa (Red Algae) Extract, Ethylhexylglycerin, Menthyl Lactate, Milk Protein, Sodium Hyaluronate, Symphytum Officinale (Comfrey) Rhizome/Root Extract, Potassium Sorbate, Tocopherol

PROFESSIONAL PEELS

aspect[™]
PROFESSIONAL

ASPECT™

PROFESSIONAL PEELS

LACTOBOTANICAL PEELS

Lactobotanical formulas are a synergistic marriage between chirally correct L-Lactic Acid and the patented Canadian Willowherb™ extract. Lactobotanical Peel 20% is an ideal introduction to professional treatments with an opportunity to advance to Lactobotanical Peels 30% and 40%.

Suitable for

- All skin types
- Ageing
- Dry
- Dehydrated
- Pigmentation
- Problematic

Key Ingredients and Benefits:

- **L-Lactic Acid** | Lactic Acid is a gentle AHA that effectively exfoliates to help retexturise the skin improving the appearance of the signs of ageing, including fine lines, wrinkles and dark pigmented areas, while providing hydrating properties to maintain moisture levels of the skin.
- **Canadian Willowherb™ Extract** | A comforting antioxidant that helps to minimise the risk of adverse effects on the skin.

Usage:

For professional use only. See Aspect Professional Protocols for usage according to treatment.

LACTOBOTANICAL PEEL 20%

pH: 2.9 – 3.15

LACTOBOTANICAL PEEL 30%

Lactobotanical™ Peel 30%: Water, Lactic Acid, Glycerin, Sodium Hydroxide, Phenoxyethanol, Xanthan Gum, Epilobium Angustifolium (Willowherb) Extract, Disodium EDTA, Ethylhexylglycerin, Potassium Sorbate, Sodium Metabisulfite. Lactobotanical™ Peel 40%: Lactic Acid, Water, Sodium Hydroxide, Xanthan Gum, Epilobium Angustifolium Flower/Leaf/Stem Extract, Ethylhexylglycerin, Tetrasodium EDTA, Potassium Sorbate, Glycerin, Citrus Aurantium Dulcis (Orange) Flower Extract, Phenoxyethanol

ASPECT™

PROFESSIONAL PEELS

PROBLEM SKIN PEEL

Formulated with Salicylic Acid and Beracare AAA™ the Problem Skin Peel is ideal for all problematic skin types. A deep exfoliating action paired with calming antioxidants, helps address concerns associated with problematic skin including excess oil and redness.

Suitable for

- Oily
- Problematic

Key Ingredients and Benefits:

- **Salicylic Acid 20%** | Salicylic Acid is an oil soluble BHA providing deeper exfoliation helping to minimise excess oil and lift debris to clarify skin.
- **Beracare AAA™** | A effective blend of Amazonian plant extracts including Acai Berry extract, Andiroba extract and Copaiba Balsam, to help minimise appearance of redness and relieve irritated skin.
- **AHA Fruit Blend** | Provides potent antioxidant and exfoliating properties to help improve texture of skin.

Usage:

For professional use only. See Aspect™ Professional Protocols for usage according to treatment.

Cautions:

pH: 2.0 – 2.5

Size:

50ml

Ingredient List: Alcohol Denat. (SD Alcohol 40-B), Salicylic Acid, Polysorbate 20, Copaifera Officinalis (Balsam Copaiba) Resin, Water, Vaccinium Myrtillus (Bilberry) Fruit Extract, Carapa Guaianensis (Andiroba) Seed Oil, Euterpe Oleracea (Acai Palm) Fruit Oil, Saccharum Officinarum (Sugar Cane) Extract, Citrus Aurantium Dulcis (Orange) Fruit Extract, Citrus Medica Limonum (Lemon) Fruit Extract, Acer Saccharum (Sugar Maple) Extract

ASPECT™ PROFESSIONAL PEELS PIGMENT PEEL

Formulated with Salicylic Acid and Tyrostat 11™ the Pigment Peel is ideal for dull, ageing skin types looking to restore radiant, youthful looking skin. A deep exfoliating action paired with the illuminating properties of Vitamin C helps to improve the appearance of dark pigmented areas for a smooth, even complexion.

Suitable for:

- Oily
- Ageing
- Pigmentation

Key Ingredients and Benefits:

- **Salicylic Acid 20%** | Salicylic Acid is an oil soluble BHA providing deeper exfoliation helping to minimise excess oil and lift debris to clarify skin.
- **Tyrostat 11™** | A powerful complex of Rumex Occidentalis and Vitamin C to help illuminate and even out complexion.
- **AHA Fruit Blend** | Provides potent antioxidant and exfoliating properties to help improve texture of skin.

Usage:

For professional use only. See Aspect™ Professional Protocols for usage according to treatment.

Cautions:

pH: 2.0 – 2.5

Size:

50ml

Ingredient List: Alcohol Denat. (SD Alcohol 40-B), Salicylic Acid, Water, Glycerin, Vaccinium Myrtillus (Bilberry) Fruit Extract, Rumex Occidentalis Extract, Saccharum Officinarum (Sugar Cane) Extract, Ascorbic Acid, Citrus Aurantium Dulcis (Orange) Fruit Extract, Citrus Medica Limonum (Lemon) Fruit Extract, Phenoxyethanol, Acer Saccharum (Sugar Maple) Extract

ASPECT™

PROFESSIONAL PEELS

TRIPLE ACTION PEEL

A multi-action, resurfacing peel suitable for all skin types. Combining the retinoid-like response of Lanablue™ and the exfoliating action of Lactic Acid, the Triple Action Peel helps to improve appearance of fine lines, wrinkles and pigmentation, while Niacinamide and Candian Willowherb™ help to comfort skin with hydration and antioxidant protection.

Suitable for:

- All skin types
- Ageing
- Pigmentation

Key Ingredients and Benefits:

- **Lanablue™ (Aphanizomenon Flos-aquae Extract) 10%** | A blue-green algae with retinoid-mimicking action helping to dramatically improve skins overall appearance and support optimal performance.
- **L- Lactic Acid 20%** | Lactic Acid is a gentle AHA that effectively exfoliates to help retexturise the skin improving the appearance of the signs of ageing, including fine lines, wrinkles and dark pigmented areas, while providing hydrating properties to maintain moisture levels of the skin.
- **Niacinamide 10%** | Vitamin B3 to help maintain hydration and nurture skin.
- **Canadian Willowherb™ Extract 3%** | A comforting antioxidant that helps to minimise the risk of adverse effects on the skin.

Usage:

For professional use only. See Aspect™ Professional Protocols for usage according to treatment.

Caution:

pH: 3.02 – 3.10

Size:

50ml

Ingredient List: Water (Aqua/Eau), Lactic Acid, Niacinamide, Hydrogenated Starch Hydrolysate, Glycerin, Xanthan Gum, Phenoxyethanol, Acrylamide/Sodium Acryloyldimethyltaurate Copolymer, Epilobium Angustifolium Flower/Leaf/Stem Extract, Isohexadecane, Potassium Sorbate, Disodium EDTA, Aphanizomenon Flos-aquae Extract, Ethylhexylglycerin, Polysorbate 80, Sorbitan Oleate, Sodium Metabisulfite

ADVANCED PEELS

aspect[™]
PROFESSIONAL

ASPECT™ PROFESSIONAL PEELS POWER PEEL

A unique three step peel system that contains a powerful blend of actives including Kojic Acid, Mandelic Acid, Glycolic Acid, Salicylic Acid, Retinol and Emblica that work synergistically to deliver improved skin texture, clarity and visibly brighter skin.

Suitable for:

- Most skin types
- Thickened photodamaged skin
- Dullness and uneven texture
- Ageing
- Problematic Skin
- Pigmentation
- Excess oil

Key Ingredients and Benefits:

- **Emblica** | A potent antioxidant provides protection against external oxidative stress, including photodamage, helping to illuminate and visibly diminish the signs of excessive UV exposure.
- **Glycolic Acid** | The smallest molecular weight AHA that penetrates quickly and deeply to remove build-up of lifeless cells.
- **Kojic Acid** | A powerful chelating agent that addresses the appearance of dark spots to even out complexion.

Usage:

For professional use only. See Aspect™ Professional Protocols for usage according to treatment.

Cautions:

pH:

Step One: 1.82, **Step Two:** 2.47, **Step Three:** 5.25

Size:

Frequency

Weekly

CUSTOM FACIAL TREATMENTS

LEVEL 1 HYDRATING FACIAL

Fitzpatrick Type: All
Treatment Time: 30 mins

WHO IS THIS FOR?

A deeply hydrating, antioxidant facial treatment suitable for all skin types. An ideal skin conditioning facial for clients new to professional treatments or when a peel is contraindicated.

Benefits:

- Peel alternative
- Offers an instant plumping effect
- Delivers intense hydration
- Refines skin, creating a smoother, softer appearance

PROTOCOL

1ST CLEANSE Gentle Cleanser

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

COLOUR MATCH Using cotton tip, apply three closest **Aspect Minerals™** Powder shades to client's jawline and down neck. Confirm if client would prefer to be matched to their true skin tone or a little warmer and identify most suitable shade.

2ND CLEANSE Purastat 5 Cleanser

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

TONE Peel Preparation; optional

In a glass bowl, saturate 2x2 gauze. Ensure that there is no dripping. Apply evenly over face. Wait 1-2 minutes until solution dries.

EXFOLIATE Fruit Enzyme Mask

With fingertips, massage 1 - 2 pumps onto skin until mask liquefies and pilling occurs. Leave on skin for 5 - 10 minutes then remove thoroughly with a damp cloth.
Optional: Add steam for additional exfoliation.

MASK Hydrating Mask

Apply 1 teaspoon of mask and massage onto skin for 5 minutes.

MASSAGE Soothing Gel

Apply a tablespoon amount to décolleté and neck. Massage up to 15 minutes, including scalp. Re-wetting fingers when more slip is required. Then remove gel and mask with a damp cloth.

FINISH Layer one pump of **Hyaluronic Hydrating Serum, Redless**, followed with an application of **Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream**.

CONFIDENCE CODE Gently tap out a small amount of the selected loose powder shade onto a tissue. Using client's own **Aspect Minerals™ Kabuki Brush**, tester or disposable Kabuki Brush, press powder onto brush and tap off any excess. Starting at centre of face, gently buff product into the skin moving outward using circular motions. Continue to apply to the neck and chest.

Products used: Gentle Cleanser; Purastat 5 Cleanser; Peel Preparation; Fruit Enzyme Mask; Hydrating Mask; Soothing Gel; Hyaluronic Hydrating Serum; Redless; Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream; Super Moisturising Complex; Aspect Minerals™ Powder

CUSTOM FACIAL TREATMENTS

LEVEL 1
PROBIOTIC FACIAL
Fitzpatrick Type: All
Treatment Time: 30 mins

WHO IS THIS FOR?

A soothing probiotic facial for reactive problematic skin concerns. An ideal facial for clients new to professional treatments or when a peel is contraindicated.

Benefits:

- Peel alternative
- Relaxes stressed skin
- Clarifies problematic skin
- Refines skin's appearance

PROTOCOL

1ST CLEANSE Gentle Cleanser

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

COLOUR MATCH Using cotton tip, apply three closest **Aspect™ Minerals Loose Powder** shades to client's jawline and down neck. Confirm if client would prefer to be matched to their true skin tone or a little warmer and identify most suitable shade.

2ND CLEANSE Purastat 5 Cleanser

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

TONE Peel Preparation; optional

In a glass bowl, saturate 2x2 gauze. Ensure that there is no dripping. Apply evenly over face. Wait 1-2 minutes until solution dries.

EXFOLIATE Fruit Enzyme Mask

With fingertips, massage 1 - 2 pumps onto skin until mask liquefies, and pilling occurs. Leave on skin for 5 - 10 minutes then remove thoroughly with damp cloth. Optional: Add steam for additional exfoliation.

Advanced Option for thickened skin:

Lactobotanical™ 20% Peel In a glass bowl, dispense 1.5mL-3mL onto 2x2 gauze. Ensure there is no dripping and apply evenly over face. Leave on for up to 5 minutes then remove thoroughly with damp cloth, followed by Neutralize (Please refer to Lactobotanical Peel protocols). Pat skin dry.

MASK Probiotic Mask

Massage a large pearl sized amount onto face, neck, and décolletage. Leave for 20 mins. Remove with a damp cloth using a gentle, sweeping action. To intensify results: Apply mask as final step, after serums and leave overnight.

OPTIONAL ADD ON (allow for additional time)

Intense Hydrating Sheet Mask

Remove sheet mask from packaging. Apply to clean, dry face and leave for 20 minutes or longer. **Advanced Option** for intensive skin boosting. Apply Aspect™ water-based serum according to skin condition before applying the sheet mask. Remove sheet and gently press excess serum into the skin.

FINISH

Layer one pump of **Hyaluronic Hydrating Serum, Redless**, followed with an application of **Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream**.

CONFIDENCE CODE

Gently tap out a small amount of the selected loose powder shade on to a tissue. Using client's own **Aspect Minerals™ Kabuki Brush**, tester, or disposable Kabuki Brush, press powder onto brush and tap off any excess. Starting at centre of face, gently buff product into the skin moving outward using circular motions. Continue to apply to the neck and chest.

Products used: Gentle Cleanser; Purastat 5 Cleanser; Peel Preparation; Fruit Enzyme Mask; Neutralise; Lactobotanical Peel 20%; Probiotic Mask; Optional Intense Hydrating Sheet Mask; Hyaluronic Hydrating Serum; Redless; Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream; Super Moisturising Complex; Aspect Minerals™ Powder

CUSTOM FACIAL TREATMENTS

LEVEL 1 REFINE FACIAL

Fitzpatrick Type: All
Treatment Time: 30 mins

WHO IS THIS FOR?

A deep cleansing facial treatment for problematic, breakout prone skin types, that leaves the skin looking clear and fresh. An ideal custom facial treatment before progressing to the Problem Skin Peel.

Benefits:

- Peel alternative
- Delivers intense hydration
- Smooths texture
- Refines skin's appearance

PROTOCOL

1ST CLEANSE Gentle Cleanser

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

COLOUR MATCH

Using cotton tip, apply three closest **Aspect Minerals™ Powder** shades to client's jawline and down neck. Confirm if client would prefer to be matched to their true skin tone or a little warmer and identify most suitable shade.

2ND CLEANSE

Purastat 5 Cleanser

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

TONE

Peel Preparation; optional

In a glass bowl, saturate 2x2 gauze. Ensure that there is no dripping. Apply evenly over face. Wait 1-2 minutes until solution dries.

EXFOLIATE

Fruit Enzyme Mask

With fingertips, massage 1 - 2 pumps onto skin until mask liquefies and pilling occurs. Leave on skin for 5 - 10 minutes then remove thoroughly with a damp cloth.
Optional: Add steam for additional exfoliation.

Advanced Option for thickened skin: Lactobotanical™ 20% Peel

In a glass bowl, dispense 1.5mL - 3mL onto 2x2 gauze. Ensure there is no dripping and apply evenly over face. Leave on for up to 5 minutes then remove thoroughly with a damp cloth, followed by Neutralize (Please refer to Lactobotanical Peel protocols).

MASK

Exfoliating Clay Mask

Apply 1 teaspoon of mask to skin and leave to dry for 10 - 15 minutes. Rewet skin with wet fingertips and emulsify mask before removing thoroughly with damp cloth.

MASK 2

Neutralise

In a glass bowl, saturate 2x2 gauze. Ensure that there is no dripping. Apply evenly over face. Wait 1-2 minutes until solution dries.

EXTRACT

Perform Extractions; if applicable

Finger covers or gentle use of extractor tool.

ADVANCED OPTION

ADD ON MASK Intense Hydrating Sheet Mask, remove sheet mask from packaging. Apply to clean, dry face and leave for 20 minutes or longer. Remove sheet and gently press excess serum into the skin.

FINISH Probiotic Mask

Apply a teaspoon amount to face, neck and décolleté. Massage gently until mask has suitably absorbed. *For excessively oily skin remove thoroughly with a damp cloth.* Layer one pump of **Hyaluronic Hydrating Serum, Redless**, and one pump **Super Moisturising Complex**. Followed with an application of **Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream**.

**CONFIDENCE
CODE**

Gently tap out a small amount of the selected loose powder shade onto a tissue. Using client's own **Aspect Minerals™ Kabuki Brush**, tester or disposable Kabuki Brush, press powder onto brush and tap off any excess. Starting at centre of face, gently buff product into the skin moving outward using circular motions. Continue to apply to the neck and chest.

Products used: Gentle Cleanser; Purastat 5 Cleanser; Peel Preparation; Fruit Enzyme Mask; Neutralise; Probiotic Mask; Hyaluronic Hydrating Serum; Redless; Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream; Super; Moisturising Complex; Exfoliating Clay Mask; Aspect Minerals™ Powder; Optional Intense Hydrating Sheet Mask

CUSTOM FACIAL TREATMENTS

LEVEL 1 LUXE FACIAL

Fitzpatrick Type: All
Treatment Time: 60 mins

WHO IS THIS FOR?

The ultimate nutrition infusion for the client with ageing, dehydrated skin looking for a luxurious pamper. An indulgent two layered mask treatment designed to give your clients an intense hydration and vitamin boost.

- Benefits:**
- Peel alternative
 - Delivers intense hydration
 - Smooths texture
 - Refines skin's appearance

PROTOCOL

1ST CLEANSE Gentle Cleanser

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

COLOUR MATCH Using cotton tip, apply three closest **Aspect Minerals™ Powder** shades to client's jawline and down neck. Confirm if client would prefer to be matched to their true skin tone or a little warmer and identify most suitable shade.

2ND CLEANSE Purastat 5 Cleanser

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

TONE Peel Preparation; optional

In a glass bowl, saturate 2x2 gauze. Ensure that there is no dripping. Apply evenly over face. Wait 1-2 minutes until solution dries.

EXFOLIATE Fruit Enzyme Mask

With fingertips, massage 1 - 2 pumps onto skin until mask liquefies and pilling occurs. Leave on skin for 5 - 10 minutes then remove thoroughly with a damp cloth.
Optional: Add steam for additional exfoliation.

MASK Hydrating Mask

Apply 1 teaspoon of mask and massage onto skin for 5 minutes.

MASSAGE Soothing Gel

Apply a tablespoon amount to décolleté and neck. Massage up to 15 minutes, including scalp. Re-wetting fingers when more slip is required. Then remove gel and mask with a damp cloth.

MASK 2 Probiotic Mask

Massage a large pearl sized amount onto face, neck and décolletage. Leave for 20 mins. Remove with a damp cloth using a gentle, sweeping action. To intensify results: Apply mask as final step, after serums and leave overnight.

LACTOBOTANICAL PEELS

LEVEL 1 – 3 LACTOBOTANICAL PEEL

20% Peel - All Fitzpatrick
30% Peel - All Fitzpatrick
40% Peel - Fitzpatrick I - II

Treatment time: 30 mins

WHO IS THIS FOR?

Lactobotanical Peels are suitable for all skin types, especially those that are dry or dehydrated. Formulated with the calming Canadian Willowherb™ extract and starting at 20% Lactic Acid, this is the ideal option for those clients starting their Aspect™ Professional journey.

Benefits:

- Introduction to professional treatments
- Gentle hydrating exfoliation
- Smooths texture
- Refines skin's appearance

PROTOCOL

PRE TREATMENT CHECK

Prior to performing this peel, it is recommended that all clients must be primed on the appropriately prescribed skincare for a minimum of two weeks as well as have completed a patch test without incident (see priming skin protocols page 75).

1ST CLEANSE

Purastat 5 Cleanser OR Deep Clean

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

COLOUR MATCH

Using cotton tip, apply three closest Aspect™ Minerals Loose Powder shades to client's jawline and down neck. Confirm if client would prefer to be matched to their true skin tone or a little warmer and identify most suitable shade.

2ND CLEANSE

Purastat 5 Cleanser OR Deep Clean

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

PREP

Peel Preparation

In a glass bowl, saturate 2x2 gauze. Ensure that there is no dripping. Apply evenly over face. Wait 1-2 minutes until solution dries.

PROTECT

Soothing Balm

Apply to eyebrows, outer corners of eyes, nose and lips.

PREPARE

Place 4 cotton pads in a glass bowl and evenly saturate with Neutralise. Place 8 cotton pads dampened with water (not dripping) into a separate glass bowl, in preparation for the removal of the peel.

PEEL APPLICATION

Lactobotanical Peel

In a glass bowl, dispense 1.5-3ml of peel solution onto 2x2 gauze. Ensure there is no dripping and apply evenly over face. Leave on for 1-5 minutes (no longer). **Watch for end point. This could be an increased discomfort score of 6/10, increased erythema or sign of frosting/blanching. Neutralize immediately if end point is reached before 5 minutes.**

NEUTRALISER NEUTRALIZE PEEL

Step 1: Take 2 of the pre-soaked Neutralise pads and gently wipe over the entire face. Repeat this step twice.

NOTE: Your client may experience a temporary heat sensation or a slight fizz on the skin's surface due to the action of the peel being neutralised, this is normal and will subside quickly.

Step 2: Gently continue to rinse the skin with the cotton pads soaked in water. Continue up to 4 times or until the client is no longer experiencing tingling.

ADVANCED OPTION ADD ON MASK

Intense Hydrating Sheet Mask, remove sheet mask from packaging. Apply to clean, dry face and leave for 20 minutes or longer. Remove sheet and gently press excess serum into the skin.

FINISH Layer one pump of Hyaluronic Hydrating Serum, Redless and Soothing Balm. Followed with an application of Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream.

CONFIDENCE CODE Gently tap out a small amount of the selected loose powder shade onto a tissue. Using client's own Aspect Minerals™ Kabuki Brush, tester or disposable Kabuki Brush, press powder onto brush and tap off any excess. Starting at centre of face, gently buff product into the skin moving outward using circular motions. Continue to apply to the neck and chest.

Products used: Purastat 5 Cleanser OR Deep Clean; Peel Preparation; Lactobotanical™ Peel 20%, 30%, 40%; Neutralise; Hyaluronic Hydrating Serum; Redless; Soothing Balm; Intense Hydration Sheet Mask; Aspect Minerals™ Powder; Physical Protection SPF 50+ Sunscreen Cream

SALICYLIC ACID BASED PEELS

| | |
|----------------|--|
| LEVEL 3 | PROBLEM SKIN PEEL 30 minutes Mild to Moderate Flaking and Peeling |
| LEVEL 3 | PIGMENT PEEL 30 minutes Mild to Moderate Flaking and Peeling |

SKIN TYPE: ALL SKIN TYPES

Indications:

- Ageing
- Excess Oil
- Problematic
- Pigmentation

Frequency:

- One treatment every month
- Severe cases one treatment every three weeks
- 6 - 12 sessions

Skin Priming Recommendations

At least 14 days prior:

- AHA Serum
- Vitamin A Serum
- Pigment Serum

Cautions:

SALICYLIC ACID BASED PEELS

LEVEL 3 PROBLEM SKIN PEEL

Fitzpatrick Type:
I - II - Up to 6mL (2 passes)
III - VI - 3mL Only (1 pass)
Treatment time: 30 mins

WHO IS THIS FOR?

Ideal for clients with oily, problematic skin. Salicylic Acid helps to lift excess oil and build up to clarify appearance and Beracare AAA™ helps to calm stressed, red skin often associated with breakouts.

Benefits:

- Clarifies problematic skin
- Calms stressed skin
- Helps to prevent future breakouts
- Refines skin's appearance

PROTOCOL

PRE TREATMENT CHECK

Prior to performing this peel, it is recommended that all clients must be primed on the appropriately prescribed skincare for a minimum of two weeks as well as have completed a patch test without incident (see priming skin protocols page 75).

1ST CLEANSE

Purastat 5 Cleanser OR Deep Clean

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

COLOUR MATCH

Using cotton tip, apply three closest **Aspect Minerals™ Powder** shades to client's jawline and down neck. Confirm if client would prefer to be matched to their true skin tone or a little warmer and identify most suitable shade.

2ND CLEANSE

Purastat 5 Cleanser OR Deep Clean

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

PREP

Peel Preparation

In a glass bowl, saturate 2x2 gauze. Ensure that there is no dripping. Apply evenly over face. Wait 1-2 minutes until solution dries.

PROTECT

Soothing Balm

Apply to eyebrows, outer corners of eyes, nose and lips.

PEEL APPLICATION

Problem Skin Peel

In a glass bowl, dispense 1.5mL - 3mL onto 2x2 gauze. Ensure there is no dripping and apply up to 2 passes evenly over face. Wait 3 minutes between passes. When final pass is dry, very gently dust away any pseudo-frost.

FINISH

Layer one pump of **Hyaluronic Hydrating Serum**, **Redless** and **Soothing Balm**. Followed with an application of **Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream**.

CONFIDENCE CODE

Gently tap out a small amount of the selected loose powder shade onto a tissue. Using client's own **Aspect Minerals™ Kabuki Brush**, tester or disposable Kabuki Brush, press powder onto brush and tap off any excess. Starting at centre of face, gently buff product into the skin moving outward using circular motions. Continue to apply to the neck and chest.

6 HOURS POST TREATMENT

Gentle Clean can be used after 6 hours should your client wish to remove any residue.

MASK

Apply **Intense Hydration Sheet Mask**, remove sheet mask from packaging. Apply to clean, dry face and leave for 20 minutes or longer. Remove sheet and gently press excess serum into the skin.

FINISH

With an application the prescribed post care soothing product:

- **Aspect Super PD Complex**
- **Hyaluronic Hydrating Serum**
- **Redless**
- **Soothing Gel** or **Soothing Balm** (for extra moisture and hydration if required)

Followed with an application of **Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream**. Continue this routine for the next 3 days post peel.

For extra moisture and comfort, cocktail **Redless** and **Hydrating Serum** and apply as needed.

Products used: Purastat 5 Cleanser OR Deep Clean; Peel Preparation; Problem Skin Peel; Hyaluronic Hydrating Serum; Redless; Soothing Balm; Intense Hydration Sheet Mask; Aspect Minerals™ Powder; Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream.

SALICYLIC ACID BASED PEELS

LEVEL 3 PIGMENT PEEL

Fitzpatrick Type:
I - II - Up to 6mL (2 passes)
III - VI - 3mL Only (1 pass)
Treatment time: 30 mins

WHO IS THIS FOR?

Clients with dark pigmented areas, uneven, dull lifeless skin. This retexturising treatment effectively exfoliates and helps to even out skin tone. Salicylic Acid smooths texture while Tyrostat™-11 illuminates complexion to restore radiance.

Benefits:

- Illuminates complexion
- Reveals youthful glow
- Evens skin tone
- Smooths texture

PROTOCOL

PRE TREATMENT CHECK

Prior to performing this peel, it is recommended that all clients must be primed on the appropriately prescribed skincare for a minimum of two weeks as well as have completed a patch test without incident (see priming skin protocols page 75).

1ST CLEANSE

Purastat 5 Cleanser OR Deep Clean

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

COLOUR MATCH

Using cotton tip, apply three closest **Aspect Minerals™ Powder** shades to client's jawline and down neck. Confirm if client would prefer to be matched to their true skin tone or a little warmer and identify most suitable shade.

2ND CLEANSE

Purastat 5 Cleanser OR Deep Clean

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

PREP

Peel Preparation

In a glass bowl, saturate 2x2 gauze. Ensure that there is no dripping. Apply evenly over face. Wait 1-2 minutes until solution dries.

PROTECT

Soothing Balm

Apply to eyebrows, outer corners of eyes, nose and lips.

PEEL APPLICATION

Pigment Peel

In a glass bowl, dispense 1.5mL - 3mL onto 2x2 gauze. Ensure there is no dripping and apply up to 2 passes evenly over face. Wait 3 minutes between passes. When final pass is dry, very gently dust away any pseudo-frost.

FINISH

Layer one pump of **Hyaluronic Hydrating Serum**, **Redless** and **Soothing Balm**. Followed with an application of **Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream**.

CONFIDENCE CODE

Gently tap out a small amount of the selected loose powder shade onto a tissue. Using client's own **Aspect Minerals™ Kabuki Brush**, tester or disposable Kabuki Brush, press powder onto brush and tap off any excess. Starting at centre of face, gently buff product into the skin moving outward using circular motions. Continue to apply to the neck and chest.

6 HOURS POST TREATMENT

Gentle Clean can be used after 6 hours should your client wish to remove any residue.

MASK

Intense Hydration Sheet Mask, remove sheet mask from packaging. Apply to clean, dry face and leave for 20 minutes or longer. Remove sheet and gently press excess serum into the skin.

FINISH

with an application of the prescribed post care soothing product:

- **Aspect Super PD Complex**
 - **Hyaluronic Hydrating Serum**
 - **Redless**
 - Followed with an application of **Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream**.
 - **Soothing Gel** or **Soothing Balm** (for extra moisture and hydration if required)
- Continue this routine for the next 3 days post peel. For extra moisture and comfort, cocktail **Redless** and **Hydrating Serum** and apply as needed.

Products used: Purastat 5 Cleanser OR Deep Clean; Peel Preparation; Pigment Peel; Hyaluronic Hydrating Serum; Redless; Soothing Balm; Intense Hydration Sheet Mask; Aspect Minerals™ Powder; Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream.

PHYTO RETINOID PEEL

LEVEL 3

TRIPLE ACTION PEEL

30 minutes
Mild flakiness

SKIN TYPE: ALL SKIN TYPES

SKIN CONDITION: AGEING, PIGMENTATION

Indications:

- Ageing
- Pigmentation

Frequency:

- One treatment every month
- Severe cases one treatment every three weeks
- 6 - 12 sessions

Skin Priming Recommendations

At least 14 days prior:

- AHA Serum
- Vitamin A Serum
- Pigment Serum

Cautions:

PHYTO RETINOID PEELS

**LEVEL 3
TRIPLE ACTION PEEL**
Fitzpatrick Type: All
Treatment time: 30 mins

WHO IS THIS FOR?

A multi-action, resurfacing peel suitable for all skin types. Combining the retinoid-like response of Lanablu™ and the exfoliating action of Lactic Acid, the Triple Action Peel helps to improve appearance of fine lines, wrinkles and pigmentation, while Niacinamide and Canadian Willowherb™ help to comfort skin with hydration and antioxidant protection.

Benefits:

- Minimise appearance of fine lines and wrinkles
- Protect from external free radical damage
- Restore youthful appearance
- Illuminate complexion

PROTOCOL

| | |
|----------------------------|--|
| PRE TREATMENT CHECK | Prior to performing this peel, it is recommended that all clients must be primed on the appropriately prescribed skincare for a minimum of two weeks as well as have completed a patch test without incident (see priming skin protocols page 75). |
| 1ST CLEANSE | Purastat 5 Cleanser OR Deep Clean Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth. |
| COLOUR MATCH | Using cotton tip, apply three closest Aspect™ Minerals Loose Powder shades to client's jawline and down neck. Confirm if client would prefer to be matched to their true skin tone or a little warmer and identify most suitable shade |
| 2ND CLEANSE | Purastat 5 Cleanser OR Deep Clean Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth. |
| PREP NEXT | Peel Preparation In a glass bowl, saturate 2x2 gauze. Ensure that there is no dripping. Apply evenly over face. Wait 1-2 minutes until solution dries. |
| PROTECT | Soothing Balm Apply to eyebrows, outer corners of eyes, nose and lips. |
| PEEL APPLICATION | Triple Action Peel Dispense 1 pump and with gloved fingertips apply evenly to skin. Leave on skin for up to 20 minutes then remove thoroughly with a damp cloth. |
| ADVANCED OPTION | ADD ON MASK Intense Hydrating Sheet Mask , remove sheet mask from packaging. Apply to clean, dry face and leave for 20 minutes or longer. Remove sheet and gently press excess serum into the skin. |

FINISH Layer one pump of **Hyaluronic Hydrating Serum, Redless and Soothing Balm.** Followed with an application of **Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream.**

CONFIDENCE CODE Gently tap out a small amount of the selected loose powder shade onto a tissue. Using client's own **Aspect Minerals™ Kabuki Brush**, tester or disposable Kabuki Brush, press powder onto brush and tap off any excess. Starting at centre of face, gently buff product into the skin moving outward using circular motions. Continue to apply to the neck and chest.

Products used: Purastat 5 Cleanser OR Deep Clean; Peel Preparation; Triple Action Peel; Hyaluronic Hydrating Serum; Redless; Soothing Balm; Intense Hydration Sheet Mask; Aspect Minerals™ Powder; Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream.

ADVANCED PEELS

LEVEL 3+

POWER PEEL

30 minutes in clinic + at home step
Moderate flaking and peeling

SKIN TYPE: MOST SKIN TYPES

Indications:

- Photodamaged
- Thickened texture
- Ageing
- Pigmentation
- Problematic

Frequency:

- One treatment every 6 weeks
- 3 sessions

Skin Priming Recommendations

At least 14 days prior:

- AHA Serum
- Vitamin A Serum
- Pigment Serum

POWER PEEL

LEVEL 3+ POWER PEEL

Fitzpatrick Type: All
Treatment time: 30 mins
+ at home step

WHO IS THIS FOR?

A unique three step peel system that contains a powerful blend of actives including Kojic Acid, Mandelic Acid, Glycolic Acid, Salicylic Acid, Retinol and Emblica that work synergistically to deliver improved skin texture, clarity and visibly brighter skin. Not recommended for pregnant or lactating women.

Benefits:

- Multi acid professional peel for optimal results
- Take home step allows for prolonged delivery of key active ingredients
- Reduces appearance of dark spots and visible signs of ageing induced by UV exposure

Caution:

Power peel is not suitable as a first time peel. It is advised that this peel should be prescribed after a course of level 1-3 peels (ie Lactobotanical or Salicylic) as a minimum to prepare the skin for treatment.

PROTOCOL

PRE TREATMENT CHECK:

Prior to performing this peel, it is recommended that all clients must be primed on the appropriately prescribed skincare for a minimum of two weeks as well as have completed a patch test without incident (see priming skin protocols page 75).

1ST CLEANSE

Purastat 5 Cleanser OR Deep Clean

Emulsify 1/2 teaspoon amount with water. Gently massage onto skin then remove thoroughly with a damp cloth.

COLOUR MATCH

Using cotton tip, apply three closest **Aspect Minerals™ Powder** shades to clients jawline and down neck. Confirm if client would prefer to be matched to their true skin tone or a little warmer and identify most suitable shade.

2ND CLEANSE

Purastat 5 Cleanser OR Deep Clean

Emulsify 1/2 teaspoon amount with water. Gently massage onto skin then remove thoroughly with a damp cloth.

PROTECT

Soothing Balm

Apply to eyebrows, outer corners of eyes, nose and lips.

PEEL APPLICATION STEP ONE

Power Peel - Step One

In a glass bowl, dispense up to 10ml of Aspect™ Professional Power Peel Step One. Apply up to 5ml of the peel to the face. The remaining peel can be applied to the décolletage or back of the hands (it is not advised to apply this peel to the neck, due to increased sensitivity). With gloved hands and using fingertips, gently spread evenly over the face (avoid massaging or rubbing vigorously). Leave on for 1-5 minutes. **(2 minutes maximum for Fitzpatrick IV and above or for first time application).**

During this time, monitor the client's comfort and observe skin for clinical end point. Remove immediately if the client has a comfort score of 6 or higher or if increased erythema is visible. Watch the skin closely for hot spots and neutralize with water immediately.

Remove Step One gently with cotton pads, and cool water only. We DO NOT recommend using Neutralise solution with Aspect™ Professional Power Peel.

ASSESS SKIN

After removal of Step One, assess the skin for any signs of end point. If there is any frosting or blanching do not proceed to step two. For minor pinpoint frosting thoroughly occlude the area with Soothing Balm before applying Step Two.

PROTECT

Soothing Balm

Apply to eyebrows, outer corners of eyes, nose and lips.

PEEL APPLICATION STEP TWO

Power Peel - Step Two

In a glass bowl, dispense up to 10ml of Aspect™ Professional Power Peel Step Two. Apply up to 5ml of the peel to the face. The remaining peel can be applied to the décolletage or back of the hands (it is not advised to apply this peel to the neck, due to increased sensitivity). With gloved fingertips, gently spread evenly over skin, allow to absorb. Additional peel may be reapplied to problem areas. Advise the client that this is a leave on treatment. Avoid cleansing the skin for a minimum of 6 hours post treatment.

When applying the peel to the décolletage or hands, repeat application and removal in the same manner as described above.

CONFIDENCE CODE

Aspect Minerals™ Powder

Gently tap out a small amount of the selected loose powder shade on to a tissue.

Using client's own **Aspect Minerals™ Kabuki Brush**, tester or disposable Kabuki Brush, press powder onto brush and tap off any excess. Starting at centre of face, gently buff product into the skin moving outward using circular motions. Continue to apply to the neck and chest.

6 HOURS POST TREATMENT

Gentle Clean can be used after 6 hours should your client wish to remove any residue.

MASK

Intense Hydration Sheet Mask, remove sheet mask from packaging. Apply to clean, dry face and leave for 20 minutes or longer. Remove sheet and gently press excess serum into the skin.

FINISH

with an application of the prescribed post care soothing product:

- **Aspect Super PD Complex**
 - **Hyaluronic Hydrating Serum**
 - **Redless**
 - Followed with an application of **Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream**.
 - **Soothing Gel** or **Soothing Balm** (for extra moisture and hydration if required)
- Continue this routine for the next 3 days post peel. For extra moisture and comfort, cocktail **Redless** and **Hydrating Serum** and apply as needed.

PEEL APPLICATION STEP THREE

Power Peel - Step Three

Take home nightly mask. From day 4 Post Peel, introduce Aspect Professional Power Peel - Step Three into your nightly prescribed skin routine. Apply a thin mask-like layer of the Power Peel - Step Three nightly and allow to soak into the skin. Continue nightly application for the next 14 - 30 days or until the product is finished. Include a daily application of Aspect™ Sun and Aspect™ Minerals for further protection.

NOTE: Due to the low pH of this peel, your client may experience sudden onset of sensation in step 1 and or step 2 of application. This is a normal response and expected. This could include tingling, itching or intense heat, or mild discomfort. This should dissipate quickly, please monitor and manage the clients comfort by fanning the skin. Continue to monitor the skin throughout the peeling process and manage appropriately.

Products used: Purastat 5 Cleanser OR Deep Clean; Soothing Balm; Power Peel (Step One, Two and Three); Aspect Minerals™ Powder; Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream; Intense Hydration Sheet Mask; Gentle Clean

ADVANCED PEELS

LEVEL 4

LACTOBOTANICAL 60% PEEL (*PHYSICIAN ONLY*)

30 minutes

Moderate flaking and peeling

SKIN TYPE: ALL SKIN TYPES

PHYSICIAN ONLY

Indications:

- Ageing
- Pigmentation
- Dry
- Dehydrated
- Problematic

Frequency:

- One treatment every 6 weeks
- 6 - 12 sessions

Skin Priming Recommendations

At least 14 days prior:

- AHA Serum
- Vitamin A Serum
- Pigment Serum

LACTOBOTANICAL PEELS

**LEVEL 4
LACTOBOTANICAL PEEL**
60% (PHYSICIAN ONLY)
Fitzpatrick I - II
Treatment time: 30 mins

WHO IS THIS FOR?

This high-level physician only peel uses a blend of anti-ageing ingredients to retexturise skin. 60% Lactic Acid provides deep exfoliation to help smooth appearance of ageing while Canadian Willowherb™ Extract hydrates and comforts skin.

Benefits:

- Physician only professional treatments
- Hydrating exfoliation
- Smooths texture
- Refines skin's appearance

PROTOCOL

PRE TREATMENT CHECK: Prior to performing this peel, it is recommended that all clients must be primed on the appropriately prescribed skincare for a minimum of two weeks as well as have completed a patch test without incident (see priming skin protocols page 75).

1ST CLEANSE **Purastat 5 Cleanser OR Deep Clean**
Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

COLOUR MATCH Using cotton tip, apply three closest **Aspect™ Minerals Loose Powder** shades to client's jawline and down neck. Confirm if client would prefer to be matched to their true skin tone or a little warmer and identify most suitable shade.

2ND CLEANSE **Purastat 5 Cleanser OR Deep Clean**
Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

PREP **Peel Preparation**
In a glass bowl, saturate 2x2 gauze. Ensure that there is no dripping. Apply evenly over face. Wait 1-2 minutes until solution dries.

PROTECT **Soothing Balm**
Apply to eyebrows, outer corners of eyes, nose and lips.

PREPARE Place 4 cotton pads in a glass bowl and evenly saturate with Neutralise. Place 8 cotton pads dampened with water (not dripping) into a separate glass bowl, in preparation for the removal of the peel.

| | |
|-------------------------------|--|
| PEEL APPLICATION | Lactobotanical Peel 60% In a glass bowl, dispense 1.5mL - 3mL onto 2x2 gauze. Ensure there is no dripping and apply evenly over face. Leave on for up to 5 minutes then remove thoroughly with damp cloth |
| NEUTRALISER | NEUTRALIZE PEEL Step 1: Take 2 of the pre-soaked Neutralise pads and gently wipe over the entire face. Repeat this step twice. NOTE: Your client may experience a temporary heat sensation or a slight fizz on the skin's surface due to the action of the peel being neutralised, this is normal and will subside quickly. Step 2: Gently continue to rinse the skin with the cotton pads soaked in water. Continue up to 4 times or until the client is no longer experiencing tingling. |
| FINISH | Layer one pump of Hyaluronic Hydrating Serum, Redless and Soothing Balm. |
| CONFIDENCE CODE | Gently tap out a small amount of the selected loose powder shade onto a tissue. Using client's own Aspect Minerals™ Kabuki Brush, tester or disposable Kabuki Brush, press powder onto brush and tap off any excess. Starting at centre of face, gently buff product into the skin moving outward using circular motions. Continue to apply to the neck and chest. |
| 6 HOURS POST TREATMENT | Gentle Clean can be used after 6 hours should your client wish to remove any residue. MASK Intense Hydration Sheet Mask , remove sheet mask from packaging. Apply to clean, dry face and leave for 20 minutes or longer. Remove sheet and gently press excess serum into the skin. FINISH with an application the prescribed post care soothing product: <ul style="list-style-type: none"> • Aspect Super PD Complex • Hyaluronic Hydrating Serum • Redless • Followed with an application of Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream. • Soothing Gel or Soothing Balm (for extra moisture and hydration if required) Continue this routine for the next 3 days post peel. For extra moisture and comfort, cocktail Redless and Hyaluronic Hydrating Serum and apply as needed. |

Products used: Purastat 5 Cleanser OR Deep Clean; Peel Preparation; Lactobotanical™ Peel 60%; Neutralise; Hyaluronic Hydrating Serum; Redless; Soothing Balm; Intense Hydration Sheet Mask; Aspect Minerals™ Powder; Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream; Gentle Clean

MODALITY

EPIDERMAL LEVELLING

60 minutes

No down time

SKIN TYPE: ALL SKIN TYPES

Indications:

- Ageing
- Oily
- Sun Damaged
- Thickened

Frequency:

- One treatment 2–3 weeks

Skin Priming Recommendations

At least 14 days prior:

- AHA Serum
- Vitamin A Serum
- Pigment Serum

Cautions:

- Fitzpatrick III-VI - Must be primed on a Pigment Serum if they are layered with Lactobotanical™ or Phyto Retinoid peels
- Not to be layered with Salicylic Acid Based Peels

MODALITY

LEVEL 3 EPIDERMAL LEVELLING

Fitzpatrick Type: All

Treatment time: 60 mins

WHO IS THIS FOR?

Suitable for all skin types except reactive problematic. Primarily used to soften the feel of skin by removing vellus hair and surface dead skin cells, leaving the skin remarkably smooth allowing enhanced penetration of products.

Benefits:

- Improves the appearance of fine lines and wrinkles
- Refines skin, creating a smoother, softer appearance
- Provides gentle, yet effective, exfoliation
- Removes vellus facial hair
- Offers an instant, illuminating effect

PROTOCOL

1ST CLEANSE **Purastat 5 Cleanser OR Deep Clean**

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

COLOUR MATCH Using cotton tip, apply three closest **Aspect Minerals™ Powder** shades to clients jawline and down neck. Confirm if client would prefer to be matched to their true skin tone or a little warmer and identify most suitable shade

2ND CLEANSE **Purastat 5 Cleanser OR Deep Clean**

Emulsify 1/2 teaspoon amount with water. Massage onto skin then remove thoroughly with a damp cloth.

DEGREASE **Alcohol Swab**

Using an alcohol swab, thoroughly degrease skin.

MODALITY **Epidermal Levelling**

Apply blade to handle and follow standard procedure.

EXFOLIATE **Fruit Enzyme Mask; optional**

With fingertips, massage 1 - 2 pumps onto skin until mask liquefies and pilling occurs. Leave on skin for 5–10 minutes then remove thoroughly with a damp cloth.

Advanced Option: Lactobotanical 20% Peel or Triple Action Peel.

Follow specific peel protocol.

MASK **Hydrating Mask or Probiotic Mask; optional**

Apply 1 teaspoon of mask and massage onto skin for 5 minutes.

MESSAGE **Soothing Gel; optional**

Apply a tablespoon amount to décolleté and neck. Massage up to 15 minutes, including scalp. Re-wetting fingers when more slip is required. Then remove gel and mask with a damp cloth. Can be apply directly after Post Epidermal Levelling or non-ablative laser application.

Intense Hydration Sheet Mask,

Remove sheet mask from packaging. Apply to clean, dry face and leave for 20 minutes or longer. Remove sheet and gently press excess formula into the skin.

FINISH Layer one pump of **Hyaluronic Hydrating Serum, Redless** and **Soothing Balm**. Followed with an application of **Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream**.

CONFIDENCE CODE Gently tap out a small amount of the selected loose powder shade onto a tissue. Using client's own **Aspect Minerals™ Kabuki Brush**, tester or disposable Kabuki Brush, press powder onto brush and tap off any excess. Starting at centre of face, gently buff product into the skin moving outward using circular motions. Continue to apply to the neck and chest.

Products used: Purastat 5 Cleanser OR Deep Clean; Alcohol Swab; Epidermal Levelling; Fruit Enzyme Mask; Lactobotanical 20% Peel; Triple Action Peel; Hydrating or Probiotic Mask; Soothing Gel; Intense Hydration Sheet Mask; Hyaluronic Hydrating Serum; Redless; Soothing Balm; Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream. Intense Hydration Sheet Mask; Aspect Minerals™ Powder

FOCUSED TREATMENTS

ILLUMINATING HAND TREATMENT

Fitzpatrick Type: All
Treatment Time: 30 mins

WHO IS THIS FOR?

Spoil hardworking hands with this luxe hydrating treatment that restores moisture and helps to even out the appearance of dark spots, revealing youthful looking skin.

Benefits:

- Illuminates appearance of hands
- Softens skin
- Boosts hydration

Pre-Treatment Set Up:

- 2 x Hot Towels

PROTOCOL

CLEANSE Purastat 5 Cleanser

Apply one pump of cleanser to the back of each hand. Emulsify with water and massage into hands and up onto forearm, then remove thoroughly with a damp cloth.

EXFOLIATE Illuminating Polish

Gently massage a pearl sized amount into hands and up onto forearm. Remove with a damp cloth using a gentle, sweeping action.

Optional: Wrap hands in hot towels and perform forearm massage before removing.

TARGET Pigment Punch Body

Apply 1 pump of serum to the back of each hand and up onto forearm.

MASSAGE Hydrating Mask

Apply a teaspoon amount of mask to the back of each hand. Perform hand and forearm massage for up to 5 minutes. Then remove serum and mask with a damp cloth.

HYDRATE Hand and Body Cream

Gently massage a pearl sized amount into hands and up onto forearm. Remove excess product from palms of hands.

PROTECT Followed with an application of **Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream**.

Products used: Purastat 5 Cleanser; Illuminating Polish; Pigment Punch Body; Hydrating Mask; Hand and Body Cream; Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream

FOCUSED TREATMENTS

NECK & DECOLLETE GLOW TREATMENT

Fitzpatrick Type: All
Treatment Time: 30 mins

WHO IS THIS FOR?

A specialised treatment for the neck and décolleté to help address early visible signs of ageing and restore a youthful looking appearance.

Benefits:

- Refines skin's appearance
- Evens skin tone
- Restores radiance
- Improves hydration

PROTOCOL

CLEANSE Purastat 5 Cleanser

Emulsify 1 pump of cleanser with water massage into neck and décolleté. Then remove thoroughly with a damp cloth.

EXFOLIATE Fruit Enzyme Mask

With fingertips, massage 1 - 2 pumps onto skin until mask liquefies and pilling occurs. Leave on skin for 5–10 minutes then remove thoroughly with a damp cloth.

Optional: Apply steam for additional exfoliation.

TARGET Pigment Punch + and Exfol L

Using fingertips, combine 2 pumps of each serum then massage into skin for up to 5 minutes.

MASSAGE Probiotic Mask

Directly over serums, apply a tablespoon amount of mask to neck and décolleté. Perform scalp massage for up to 10 minutes. Then remove serum and mask with a damp cloth.

HYDRATE Pigment Punch Body

Gently massage a pearl sized amount into neck and décolleté.

PROTECT Followed with an application of **Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream.**

Products used: Purastat 5 Cleanser; Fruit Enzyme Mask; Pigment Punch +; Exfol L; Probiotic Mask; Pigment Punch Body; Aspect Sun™ Physical Protection SPF 50+ Sunscreen Cream.

FOCUSED TREATMENTS

DE-STRESS EYE & SCALP

Fitzpatrick Type: All
Treatment Time: 30 mins

WHO IS THIS FOR?

A calming eye and scalp treatment designed to hydrate skin while relaxing the mind. Incorporating Plant Derived Enzymes and Vitamin C, this treatment helps improve the visible signs of ageing.

Benefits:

- Releases tension
- Reduces look of puffiness
- Smooths appearance of fine lines and wrinkles

PROTOCOL

| | |
|--------------------|---|
| 1ST CLEANSE | Cleansing Micellar Water Soak 2 cotton pads and press gently over eyes, follow with a sweeping motion until eye area is clean. Gentle Clean Emulsify 1/2 teaspoon amount with water. Massage gently around the delicate eye area and up onto the forehead. Then remove thoroughly with a damp cloth. |
| EXFOLIATE | Exfol L Apply 1 pump of serum around the delicate eye area and up onto the forehead. Caution: Do not apply inside the orbital rim. |
| TARGET | Super PD Complex Directly over Exfol L, apply 1 pump of serum around each eye. Using fingertips, perform pressure point massage for up to 5 minutes. |
| MASSAGE | Red-Less 21 Apply 1 pump of serum to palms. Place both hands above clients face and together take 3 deep breaths. Gently sweep serum across forehead before continuing with scalp massage for up to 10 minutes. |
| HYDRATE | Eyelift 3 Using ring finger of both hands, dot 1 pump of product along the orbital bone of both eyes. Perform relaxing eye massage for 1 minute. |

Products used: Cleansing Micellar Water, Gentle Clean, Exfol L, Super PD Complex, Red-Less 21, Eyelift 3.

FOCUSED TREATMENTS

EXFOLIATING FOOT TREATMENT

Fitzpatrick Type: All
Treatment Time: 30 mins

WHO IS THIS FOR?

Care for tired feet with this exfoliating foot treatment. Target areas of dry skin and relieve tension in the feet with a relaxing foot massage.

Benefits:

- Helps to exfoliate build up dry skin
- Smooths texture
- Releases tension

Pre-Treatment Set Up:

- Foot Bath
- 2 x Plastic Bags / Boots
- 2 x Hot Towels

PROTOCOL

CLEANSE Exfoliating Cleanser

Soak both feet in the foot bath. One foot at a time, apply 1 pump of cleanser. Massage into feet and up onto lower leg. Place foot back in bath, remove feet and dispose of water.

EXFOLIATE Illuminating Polish

One foot at a time, gently massage a pearl sized amount into feet, focusing on heels, and up onto lower leg.

MASK Exfoliating Clay Mask

Directly over polish, apply 1 tablespoon of mask to each foot. Place each foot into plastic bag / boot and wrap with hot towel. Perform hand and arm massage for 10 minutes. Remove feet from boots, rewet mask with wet fingertips and emulsify mask before removing thoroughly with a damp cloth.

Optional: Warm mask in hot towel cabinet before applying to aid in application.

HYDRATE Soothing Balm

Apply a pearl sized amount to each foot and perform foot and lower leg massage for up to 10 minutes. Remove excess product from soles of feet.

Products used: Exfoliating Cleanser, Illuminating Polish, Exfoliating Clay Mask, Soothing Balm

ASPECT DR™

FREQUENTLY ASKED QUESTIONS

IS THE ASPECT DR™ PACKAGING RECYCLABLE?

Aspect Dr™ boxes use material that has been sourced sustainably and can be recycled. Aspect Dr™ boxes are affiliated and accredited with PEFC. The manufacturing process follows sustainable methods including the use of soy based inks, alcohol free print, waterless print and chemicals are eliminated from the process. Energy efficient equipment is used and all products are recycled.

In order to protect the quality of ingredients Aspect Dr™ vessels are double insulated, the silver componentry cannot be recycled, however the plastic inner container is recyclable so may be separated and disposed of accordingly.

HOW DO I WORK THE LID?

All 15ml and 30ml products have a lockable twist cap making them ideal for traveling. To open and dispense simply hold the product by the silver collar and twist anti-clockwise until the pump lifts and locks into place ready for use. To close simply repeat action turning clockwise.

WHY ISN'T THE PUMP WORKING?

Airless pumps need to be primed, meaning when a product is used for the first time, it can take 3-5 pumps for the product to reach the pump opening to dispense. Due to the mechanics of an airless pump, it can also help to pump the product upside down. Occasionally, pumps are faulty. In that case please contact your AST Account Manager or Clinical Educator to arrange a replacement.

MY MOISTURISER IS NOT FULL.

The 15g and 50g packaging has been designed with an airless pump to maintain the integrity of the ingredients. The airless pump helps to avoid contamination and oxidation. The amount of product is measured before and after filling to ensure that the amount of product inside is the same amount stated on the packaging.

HOW LONG SHOULD MY SERUM LAST?

On average, a 30ml serum, if using 1 pump per day, will last for 3 months.

WHY DOES THE COLOUR/TEXTURE LOOK DIFFERENT?

Aspect Dr™ products are formulated with pure, natural ingredients and like all natural ingredients, there may be variations in colour and smell based on seasonal changes. Rest assured that the efficacy of the product is not been affected in any way where changes (consistency, colour or smell) have been observed.

ARE ASPECT DR™ PRODUCTS SAFE FOR PREGNANT WOMEN?

See contraindications list for products that are not recommended for use during pregnancy and lactating. Aspect Dr™ products are not tested on pregnant and lactating women, therefore it is always recommended to contact a health care professional before use of new products.

ARE ASPECT DR™ PRODUCTS TESTED ON ANIMALS?

Aspect Dr™ suppliers are all environmental and animal friendly.

ARE ASPECT DR™ PRODUCTS VEGAN?

While not all Aspect Dr™ products are vegan, there are a number of vegan friendly products in the range. See contraindications list for those products formulated with animal by-products.

ARE ASPECT DR™ PRODUCT FORMULATED WITH PHYTOESTROGENS?

Aspect Dr™ products are not formulated with phytoestrogens, however phytoestrogens are a sub property of some Aspect™ ingredients including Sea Buckthorn. Given the minimal percentage used and that phytoestrogens are a secondary property there is no conclusive research to show that it poses any risk to health.

WHY DO SOME ASPECT™ PRODUCTS CONTAIN SUCH HIGH LEVELS OF ALCOHOL?

Aspect Dr™ contains products specifically formulated for oily, problematic skin. A percentage of alcohol is used in these products for the primary purpose of degreasing the skin of excess oil. Degreasing the skin aids in the penetration of other ingredients, including Niacinamide, Salicylic Acid and Tea Tree Oil, to address common concerns associated problematic skin and optimise results for this skin type.

WHERE ARE ASPECT DR™ PRODUCTS MANUFACTURED?

Aspect Dr™ is an Australian owned company that manufactures in Australia and the USA to ensure the highest quality ingredients and product availability.

ASPECT™ PROFESSIONAL FREQUENTLY ASKED QUESTIONS

ARE THE ASPECT™ PROFESSIONAL PEELS SAFE?

Yes, as long as skin is suitable, prepared appropriately and the recommended aftercare instructions are followed.

DO ASPECT™ PROFESSIONAL PEELS LEAVE SKIN RED AND OOZING?

No, Aspect™ Professional peels initiate an exfoliating response which occurs over several days ensuring the epidermis is still intact. Mild pinking may be experienced, although normally resolves within the hour.

WHAT EFFECTS SHOULD I EXPECT FROM AN ASPECT™ PROFESSIONAL PEEL?

Slight sensitivity for the first 3 days and possible dryness or mild flaking from days 4 to 5. After 1 to 2 weeks the skin is left feeling smooth and looking more youthful.

HOW LONG IS SKIN SENSITIVE FOR AFTER A PEEL?

Normally 3-5 days depending on the type of peel. Flaking may still occur for up to 10 days post treatment.

ARE ASPECT™ PROFESSIONAL PEELS SUITABLE FOR FINER SKIN TYPES?

There are several types of Aspect™ Professional treatments including Custom Facial Treatments for when a peel is contraindicated. Once skin is suitably prepared and able to tolerate more active ingredients clients may progress to Aspect™ Professional Lactobotanical™ Peels.

WILL SKIN LOOK DRAMATICALLY DIFFERENT AFTER 1 PEEL?

A course of 3-6 treatments is recommended in order to see a significant change. Depending on the skin condition it may take up to 12 treatments along with ongoing maintenance treatments and home care.

DO ASPECT™ PROFESSIONAL PEELS HELP PROBLEMATIC SKIN CONDITIONS?

Yes, exfoliation assists with removing dead skin cell build up that can contribute to problematic skin.

WILL SKIN BREAKOUT AFTER A TREATMENT?

It is more common for problematic skin types to experience some breakouts after a peel. This is due to the purging of the pores as the skin exfoliates and rejuvenates. Sometimes skin will get worse before it gets better.

WILL WRINKLES ACTUALLY REDUCE?

Aspect™ Professional Peels help to speed up the exfoliation process leading to smoother texture, reducing the appearance of wrinkles for a more youthful-looking complexion. Deep wrinkles or dynamic lines may be softened, however, for the most superior results it is advised to follow a treatment program that includes multiple treatment types.

WILL ASPECT™ PROFESSIONAL PEELS REMOVE FRECKLES?

Aspect™ Professional Peels help to minimise the appearance of superficial hyperpigmentation, sun damage and uneven skin tone. There are several varieties of pigmentation, some very challenging to eradicate. An Aspect™ Professional Therapist will assess skin and explain what results to expect.

HOW SHOULD I APPLY A PEEL?

Always apply peels around the outer periphery of the face first and work into the centre last. The outer areas are generally thicker, more tolerant and possibly oilier. This will reduce the risk of over treatment of the cheeks and nasolabial folds which are typically sensitive areas.

WHAT SHOULD I DO IF PEEL GETS IN MY CLIENT'S EYE?

If the peel solution accidentally gets into the eye:

1. Open eyelid gently and wash eye with cold flowing water for 20 mins.
2. Place eye pad or light clean dressing only over the injured eye.
3. Contact Physician.

CAN I PEEL OTHER AREAS OF THE BODY?

Yes, although it is recommended to never treat more than 20% of the body at any one time. Aspect™ Professional Lactobotanical Peel can be used following the guidelines below:

- Hand Peels - Begin with 20% higher strength than face
- Neck Peels - Begin with 20% lower strength than face (no higher than 40%)
- Chest/Back peels - Same strength as face

CAN I USE GALVANIC, IONTOPHORESIS AND SONOPHORESIS WITH ASPECT™ PROFESSIONAL?

Due to the complexity of Aspect™ Skincare formulations, it is not recommended to incorporate Galvanic, Iontophoresis and Sonophoresis into Aspect™ Professional protocols.
